Treason Trial in Bulgaria

Fifteen Ministers Accused; One Pleads Guilty, States He Regrets Actions

By Dimeter Mishev

SOFIA, Bulgaria, Feb. 25—(AP)—Bulgaria began a trial of 15 Protestant church men on treason charges today and the first two to take the stand pleaded guilty.

Nikolay Naumov, 49, secretary of the union board of Baptist churches, coupled his plea of guilty with a statement that "the time of Communism has come." He expressed regret for his acts.

Yanko Ivanov, 48, supervisor of the Methodist church, announced calmly and clearly, "I am guilty," and then, like Naumov, began a long recital of testimony. He told the court he had spread German and American propaganda and had supplied intelligence to a representative of the United States.

On Stand At End of Day

Ivanov was still on the stand when the day's session ended.

The 15 clergymen are charged with treason, espionage and black market money dealings.

(A Washington report quoted diplomatic officials as saying Ivanov, a cripple, was tortured after his arrest by being forced to stand hours without support. The officials said the report, from a source they deemed creditable, described Ivanov as having a withered leg so that he has to use canes for support.)

Naumov told the court he now believes "a new world is being created for social justice" through Communism. With the words of the presiding judge that "sincerity" would be taken into consideration in the sentencing, Naumov proceeded with a story that he had turned over military and other information to American espionage agents.

Torture Confession

Naumov said the World Council of Churches—he identified it as an American organization—had aided in a fight against Communism in Bulgaria. He said the struggle was carried on by Dr. Paul Garber, Methodist Bishop for Central and Southern Europe. He added that Garber worked through Ivanov.

Dr. Garber, who called the spy charges "preposterous," said in Geneva recently that the confession of Ivanov could only have been obtained through torture.)

Bulgarian Evangelist churches must get rid of their contacts with Anglo-Americanism as soon as possible, because "the time of Communism has come," Naumov continued in a firm voice.

"I am calling the Bulgarian state security police a school for political reeducation," Naumov said.

He added that he had been well treated by the security police since his arrest.

Concluding Statement

"Behind the Methodist church stand the American magnates; behind the Baptist church stands Rockefeller," Naumov declared.

He concluded his testimony by saying "there is now complete religious freedom in Bulgaria. Never in Bulgaria's history was there a religious freedom as is known now."

Recently Foreign Minister Vassil Kolarov introduced in parliament a bill to make the Bulgarian Orthodox church the only "People's church," and establish strict controls over international connections by church officials. Bulgaria subsidizes the Bulgarian Orthodox church.

Unprecedented Sale in Used Car Business

TOLEDO, O., Feb. 25—(AP)—Twelve early arrivals were present today for the opening of a 1-cent sale at Nick Rapton's used car lot, but only one displayed tangible interest.

The prospective customer put a $5 deposit on a 1941 Chevrolet sedan, priced at $995. If he completes this purchase, he will be entitled to a 1935 Plymouth sedan for a penny more.

Five other vehicles were offered for 1 cent by the dealer, in what he believes to be an unprecedented sale in the used car business.

Rapton explained that he expected to take a loss, but hoped that it would be offset by big spring sales.

MPSC Grants Telephone Co. Rate Increase

This Order, The Second One, is Effective March 10

JEFFERSON CITY, Feb. 25—(AP)—The Missouri Public Service Commission granted a $3,228,000 rate increase to Southwestern Bell Telephone company for the second time today.

This time Commissioner Agnes Mae Wilson said she concurred fully with Chairman Morris E. Osbourn and Commissioner Kyle Williams. But she filed a separate opinion to discuss her views on utility rates.

When the PSC issued its first order, effective February 1, Miss Wilson agreed with the result but differed with Osburn and Williams on some of the facts they used in reaching it.

Protests From Cities

That drew protests from Kansas City, St. Louis, Trenton and other cities. They appealed to Circuit Judge Sam C. Blair. He reversed the original PSC decision because, he said, Miss Wilson's position made the order illegal.

The PSC then had to cancel the rate increase for the first three weeks of February. It ordered the money refunded to customers.

Today's order reinstated the rate boost, effective March 10.

As in the first order, Commissioners Charles L. Henson and E. L. McClintock dissented.

They reiterated that in their opinion, "The evidence in this case does not support the increase which has been allowed.

"We believe from the evidence that the commission is justified in allowing some increase but, in our opinion, the amount x x x is excessive and increases the rates of telephone service more than is necessary to enable the company to earn a fair return."

A Separate Opinion

Miss Wilson said in her separate concurring opinion that "for the purpose of a decision in this case I fully concur in the report and orders of Chairman Osburn and Commissioner Williams.

"However, I entertain certain views concerning some of the principles of regulation involved which I feel constrained to discuss in conjunction with my concurrence x x x."

Otherwise, her separate opinion followed along the same general lines as the one she filed January 31, a day before the effective date of the earlier PSC decision.

When Kansas City and St. Louis, leading the fights against the rate increase, asked a circuit court review, they argued the decision was invalid because Miss Wilson did not concur in the findings of fact on which the decision would have to be based.

To Ask Fourth Round Wages

CHICAGO, Feb. 25—(AP)—The Communication Workers of America will ask a fourth round of wage increases for its 200,000 independent union members, says Joseph A. Beirne.

The amount of the demand to be made on the nation's telephone industry, Bierne said, will be determined at the CWA's national convention in Chicago June 12.

GM Cuts Prices, Wages

Attributes Price Cuts to the Pay Reductions, Lower Cost of Materials

By Harold W. Ward

WASHINGTON, Feb. 25—(AP)—General Motors corporation today cut prices and wages as the cost of living index dropped for the fourth straight month.

The price cuts ranged from $10 to $40 on all GM passenger automobiles and Chevrolet trucks.

The wages, tied to the cost of living index, were reduced two cents an hour for 273,000 production workers. The firm's $8,000 salaried employes took a flat $10 cut in quarterly living allowances.

GM, the nation's biggest auto maker, attributed the price cuts partly to the pay reductions and partly to lower costs of certain materials.

DETROIT, Feb. 25—(AP)—The score now reads this way since General Motors workers hitched their wages to the cost of living last May: One gain, one draw, one loss.

In a unique cost-of-living wage formula, the CIO auto workers and electrical workers agreed to an 11-cent hourly pay boost. In addition, the contract said their wages would rise or fall one cent for each corresponding rise or fall of 1.14 in the consumer price index of the Bureau of Labor Statistics.

This was to be determined every three months. After the first three months the workers were given an additional three cents because the price index was up. Three months later, in December, the index had dropped, but not enough. So the wages remained the same.

And now, with the further drop in the cost of living, the wages will go down on March 1 by two cents. This puts them only one cent ahead of last May's.

Nevertheless, this will not be a permanent drop for the workers. Next May 29, by another clause in the contract, they are assured of a three-cent "annual improvement" increase.

Big Reduction

The wage reduction was estimated to save $9,000,000 to $10,000,000 annually in the production workers' payroll.

These savings, GM said, are being passed along immediately to the consumer. It was GM's first price cut since the war.

The individual reductions on Chevrolet, Pontiac, Oldsmobile, Buick and Cadillac will be announced later. The company also indicated that price cuts will be made later by the GMC truck and coach division.

It also was the first wage slash for GM workers under the corporation's unusual two year contract with the CIO United Auto Workers. The wages are pegged to the ups and downs of the government's cost of living index. The contract still has more than a year to run.

In advance of GM's announcement, the auto union called for an immediate cut in prices. It said the index drop is "an indication that prices are on the way down."

Living Costs Down

The index showed today that from Dec. 15 to Jan. 15 the retail prices of goods and services purchased by moderate-income city families declined 0.3 per cent.

The latest index (Jan. 15) was still 1.2 per cent higher than a year ago, 28.2 per cent over June 1946—when major price controls were abandoned—and 73.3 per cent above the August 1939 level. The index has now dropped 2.1 per cent below the record, which was in August and September of

Deported From Russia, She is Questioned by Federal Jury

NEW YORK, Feb. 25—(AP)—Anna Louise Strong, American writer deported from Russia as a spy, said she "was stepping on somebody's toes" in the Soviet Union.

The 64-year-old newspaperwoman was interviewed at the federal courthouse after she had spent 30 minutes before a federal grand jury investigating subversive activities.

On her arrival from Europe by plane yesterday, Miss Strong refused to elaborate on Russian charges against her. She did deny spying on the Soviets, a denial she repeated today.

Then she said "I was working out an assignment that I thought would interest the newspapers of the world and the wider interests of mankind.

"In the present disturbed condition in the world, any normal questions by a reporter arouses suspicion among lower officials of any government.

"I was stepping on somebody's toes. I was making many officials mad.

"However, I was doing it unconsciously. I thought I was doing them a favor. All countries have stupid officials and prosecutors who once they have decided against you, go out to get their man."

She did not identify the officials whom she said she angered.

Asked if she ever had been or now is a Communist party member, Miss Strong replied:

"That is a $64 question which I will answer before the grand jury if they ask me, but not for you."

Miss Strong's writings have been described as consistently pro-Soviet.

She insisted that she never has given up her American citizenship, asserting "I have scrupulously guarded" it and that "there is nothing that I inherited from my parents that I prize more."

The Cow is in The Silo And the Rancher Can't Get Her Out

YUKON, Okla., Feb. 25—(AP)—Hi diddle diddle, the cat and the fiddle, the cow jumped into the silo.

And Bill Mach ain't laughin'. He's gotta get her out.

But how is he going to do it?

It was a black day Tuesday at the Mach ranch south of here. The cow—a 1,400-pound pure bred Hereford worth $1,000—was sick. The vet came and treated her. When it was all over they untied Bossy and let her go.

She went—for Mach.

Mach is no matador but he jumps fast. The cow's horn ripped his shirt pocket as she thundered by.

When Mach opened his eyes—no cow.

"I looked at the hired man and I looked at the doc," said Mach. "They were standing with their mouths open."

Mach's jaw dropped too when they showed him.

Jumped Through Door

The cow had jumped through a tiny feed door into the silo. It measured just 17 by 25½ inches. That's roughly the size of a newspaper page.

And you know what a cow is. There could be no doubt. There was the cow in the concrete silo.

There were a few red hairs on the door sill. Yet there wasn't a bruise on Bossy, said the vet.

Since then Mach has been tearing his hair.

What to do?

He can't leave her in—she's gaining weight.

He can't get her out—she's too big already.

He can't push her—she'd jam tight.

He can't pull her—she'd come apart.

Cow Is Content

He can't butcher her—she's worth too much money as breeding stock.

And he can't tear the 40-foot silo down—it's worth more.

He can't even rip the door out—it's steel anchored in concrete blocks and might collapse the whole silo on top of the cow.

Someone suggested an Oklahoma oil derrick to hoist her out. When Mach heard the cost of that he couldn't even tear his hair.

As for the cow, she appears to be quite content in her 16-foot circular prison. Every so often she comes to the little door and looks out, chewing her cud.

It's nice in here, she seems to say . . .

I'll leave it up to Bill.

Falls From Speeding Car

Girl, Four and Half Years Old, Not Seriously Hurt

While Mr. and Mrs. Russell Harris of Omaha, Neb., were with their four and half-year old daughter, Malinda Harris, in the emergency room of the Bothwell hospital, Thursday afternoon, Miss Leona Edwards, another passenger in a 1948 De Soto sedan being driven from their home intended to take them to Miami Fla., gave the following account of an unusual accident, which occurred that afternoon about twenty-four miles west of Sedalia on highway 50.

Miss Edwards said while the four were heading east on the highway, Malinda who was riding in the rear seat with her, wanted to change positions. She said while Malinda was changing seats, she accidently hit the right side door handle and the door suddenly came open.

She said the girl fell out of the car while it was going at a high rate of speed, and after Mr. Harris, who was driving, had stopped the automobile they had driven about a mile down the highway.

Thrown Into Ditch

When they returned, the girl was lying in a ditch, face down. At first they thought she was dead. They hurriedly drove toward Sedalia and stopped about two miles at a tavern to ascertain the location of a hospital in Sedalia.

A call was then given the police station, and a radio message was given a police car. The police car met the Harris car on the highway and escorted it to the hospital.

Mr. Harris carried his daughter inside and she was immediately taken to the emergency room. She was treated by Dr. John B. Carlisle, who said her condition was not too serious. She was treated for bruises about the body, shock and a cut below the left side of her jaw.

She was admitted to the hospital about 2:45 o'clock and within an hour was dismissed.

The Harris' did not continue their trip to Miami, but headed back toward home.

Cold War is No Such Thing

LOS ANGELES, Feb. 25—(AP)—Keep the pressure on Russia, say Maj. Gen. William J. (Wild Bill) Donovan and Bohus Benes.

"The Russians are holding us on a narrow front called the air lift," said Donovan, wartime head of OSS yesterday. "We should pull them off on a larger front by denying them the use of all the great canals and harbors of the world."

"We need to be more aggressive," said Benes, nephew of the late Czech president. "When really pressed it's possible the Bolshevik leaders may be inclined to settle realistically for the limitation of Communism to the Soviet Union.

"If we are aggressive enough a bloody war might be evaded. On the other hand, the moment several people are shot the Third World War will be on."

Or, as Gen. Donovan put it: "The cold war is no such thing—it's hot as hell."

Both the general and Benes were here for speaking engagements but gave their best shots to interviewers.

At 95 She Takes Up Horseback Riding

AMHERST, Mass., Feb. 25.—(AP)—Mrs. Lois Mitchell, who will be 95 on April 26, has taken up horseback riding—but she doesn't see anything remarkable about that.

In recent years she has confounded her friends by her ability at dancing, bicycle riding, mountain climbing and hiking.

"The open winter has cut down my activities some," she said, "I usually get in a lot of skating."

Important Events In The World News

PARIS, Feb. 25—(AP)—A high government source said today war minister Paul Ramadier had taken legal action against the central committee of the French Communist party for allegedly inciting the army to revolt.

The informant said Ramadier's complaint was based on statements made in posters and the Communist Daily L'Humanite during last fall's miners' strike.

OSLO, Norway, Feb. 25—(AP)—No official Norwegian source will confirm reports from Helsinki of Soviet Russia strengthening her garrison's along the Soviet-Norwegian border.

Official circles in Oslo regard these reports as part of a war of nerves against Norway.

NANKING, Feb. 25—(AP)—Hopes for peace talks are higher today than at anytime since Li Tsung-Jen took over the presidential powers from Chiang Kai-Shek.

Li flew back today from a south China visit that boosted his standing with the Nationalists and with the Communists with whom he must deal for peace.

WASHINGTON, Feb. 25—(AP)—Senator Taft (R-Ohio) called today for an examination of Great Britain's economic structure before Congress votes money for the second year of Marshall plan aid.

Taft, who heads the senate GOP policy committee, told a reporter he takes with a grain of salt the statement by Christopher P. Mayhew, British undersecretary of foreign affairs, that Britain has recovered her economic feet and is turning to "new social and economic experiments."

WASHINGTON, Feb. 25—(AP)—The Truman labor bill bumped into new delay today.

Chairman Elbert Thomas (D-Utah) announced the Senate Labor committee has tentatively put off further study of it until next Friday. He had previously declared the committee would begin closed door work on it no later than Monday.

Thomas' announcement brought some jibes from Republicans although he said the delay was necessary to give the committee staff time to get the record of hearings printed.

WASHINGTON, Feb. 25—(AP)—Great Britain's request for $940,000,000 in recovery funds will be reviewed Monday by the Senate Foreign Relations committee, Chairman Connally (D-Texas) said today.

A public hearing will be held to question Economic Cooperation Administrator Paul Hoffman and Thomas Finletter, ECA mission chief to Britain, on Britain' needs.

Outline Program To UN

For Long Range Betterment of Underprivileged Areas of the World

By Charles A. Grumich

LAKE SCCESS, Feb. 25—(AP)—The United States laid before the United Nations today the broad outlines of President Truman's "bold new program" for long-range betterment of underprivileged areas the world over.

The first major policy statement here on the fourth point in Mr. Truman's inaugural address was given to the 18-nation economic and social council by assistant secretary of state Willard L. Thorp.

There was no mention of how much money the United States might put up or how private capital would participate as proposed by Mr. Truman, but Thorp told the council:

"In order to safeguard the cooperative nature of the enterprise and the international character of the organization sponsoring it, no one country should be expected to assume all or most of the financial burden of the expanded program."

Talk 3-Point Program

In this connection observers recalled that the United States has contended it should pay no more than one-third of the annual U. N. budget but has agreed reluctantly to carry nearly 40 percent of the costs.

Thorp urged the council to take up a three-point program he said the United States would offer as a resolution. It proposes that:

1. The U. N. and its specialized agencies prepare a coordinated "concrete program" for consideration by the council at its summer session in Geneva.

2. ". . . The report covers ways and means for arranging for financial expansion" to support projects undertaken on recommendation of the U. N. and agencies.

3. The report includes recommendation for coordination of planning, execution and control.

Will Take Time

"The timetable for attainment of these objectives of economic development is measured in decades, not in years," Thorp told the council.

Thorp re-emphasized President Truman's pronouncement that the program would foster private capital investment in needful areas with reasonable assurances that it would be protected.

Thorp pointed out the program was pegged on a flow of technological know-how as well as capital for full development of the world's natural wealth and promotion of good livelihood. He said no one country has a monopoly on the skills needed for general improvement.

He said that domestic private investment last year in the United States came to $38,800,000,000 as compared with $9,000,000,000 in private foreign investment.

Barriers Ahead

"Today," he added, "there appear to be many barriers to the flow of private capital in considerable quantities. The suggestion made by the president is that some way be found whereby sufficient assurances can be given so that the existing obstacles will be removed."

40-Foot Waves Batter Beaches

REDONDO BEACH, Cal., Feb. 25.—(AP)—This coastal community shook the water out of its ears today and braced itself for another battering by 40-foot waves.

Some 100 residents fled from their waterfront homes as the huge breakers smashed over the seawall, hurling 30-pound rocks through windows and over buildings. Property damage was estimated tentatively at $100,000.

High tides are scheduled to resume today and it is feared that renewed pounding of the seawall might cause the collapse of some homes weakened by yesterday's battering.

More than 25 homes were reported damaged, with fronts of six homes and one store building completely bashed in.

Invite Truman To Meeting

WASHINGTON, Feb. 25.—(AP)—H. Roe Bartle of Kansas City invited President Truman today to attend a meeting of the National Council of Boy Scouts at Boston, May 23.

Bartle is Scout executive for the Kansas City area.

He said the President, honorary chief of the Boy Scouts, took the invitation under consideration.

Gadget Made to Silence Forty Million Snorers

CHICAGO, Feb. 25—(AP)—A gadget designed to silence the country's estimated 40,000,000 snorers was put on the market today by the No Snore company.

The plastic device fits into the mouth like joined upper and lower dentures. It is solid except for pin size air holes.

Claude Porter, company president, said that snoring is caused by a strong draft of air sucked into the throat through open mouths. The device, he said, shuts off the draft and forces the snorer to breathe through his nose.

Smith Tells of Resignation, No Statement

Declined to Say Whether He Will Name Treiman

JEFFERSON CITY, Feb. 25—(AP)—Gov. Forrest Smith announced today Daniel P. Reardon has withdrawn as an appointee to the St. Louis board of police commissioners.

He declined to say whether he would appoint Israel Treiman, St. Louis lawyer, as reported in St. Louis.

He read Reardon's letter of resignation, dated Feb. 22 to his news conference this morning and added: "That's all I'm saying about it now."

Questioned, the governor said he had an appointment to see Sen. William E. Hilsman (D) of St. Louis later today. Both Reardon and Treiman live in Hillman's senatorial district.

Police board appointments must be confirmed by the state senate. Under an ironclad tradition, individual senators are consulted as to whether appointees living in their districts are acceptable to them.

Declined Appointment

Reardon wrote the governor that since his appointment Feb. 14, "I have learned that the full and efficient discharge of the many duties of this office would consume a great deal of time.

"Having fully considered this together with my obligations to the (legal)) clients we represent, I have concluded that I must decline this appointment."

Reardon said he appreciated the honor of being asked to serve.

"I know there is a fine opportunity to render a public service in this office," he added, "and fully realizing this let me assure you that it has been with a great deal of reluctance that I have made this decision."

Reardon Was Chairman

Reardon was named chairman of the four-member board to succeed H. Sam Priest, who also quit because of growing business activities.

Reardon's name currently is before the senate committee on municipal corporations along with three others — Maurice G. Roberts, Daniel G. Church and Chas. H. Ostertag.

The governor said yesterday he had asked the chairman of the committee, Sen. Doyle Barrow (D) of St. Joseph, to defer action on the board after talking with Reardon Wednesday by telephone.

Newsmen pressed Smith in an effort to learn his plans on Reardon's successor but the governor flatly refused to answer their questions.

"That's all I've got to say," he said.

Takes His Last Trick Picture

CLEVELAND, Feb. 25.—(AP)—John K. Rogers, 35, has taken his last "trick" photograph of himself in a hanging pose.

Rogers' landlord told police he found him last night hanging from a kitchen door, a canvas mover's strap around his throat and in his hand a string leading to the shutter of a camera on a nearby table. The flashbulb on the camera was spent.

In Rogers' downstairs suite police said they found "dozens" of pictures of Rogers, some in hanging poses, others tied in different positions to various objects.

In his last pose, Rogers' hands and legs were bound with leather straps. He wore a dress and a wig. Police believed the strap slipped from his shoulders to his neck.

Time Went Quickly

EASTON, Pa., Feb. 25—(AP)—For Mary Illick, Easton's oldest resident, time flies

Sthe celebrated her 100th birthday today and sighed: "I got this way before I knew it."

"When I was 90," said Miss Illick, "I thought 'that's pretty old.' And then I found the older I got—the quicker time went."

Hundreds of Comic Books Were Burned in Ceremony

CAPE GIRARDEAU, Mo., Feb. 25—(AP)—Hundreds of comic books and magazines described as unfit for children to read were burned yesterday in a ceremony at St. Mary's high school.

At the same time the Very Rev. Theon Schoen, pastor of St. Mary's church here, urged city-wide support of a movement seeking an ultimate ban on all such material. The campaign was started by a Girl Scout troop at the school.

A "trial" of students portraying comic book characters preceded the burning of the comic books. Father Schoen led the pupils in a pledge not to read or purchase objectionable publications and to stay away from establishments where they are sold.

"If you don't buy them, those who have them can't sell them," he said.

'Hop to It' Truman Is Told

Responding to His Statement He Might Stump the Country For His Program

By Jack Bell

WASHINGTON, Feb. 25—(AP)—President Truman's notice that he may stump the country for his legislative program drew a "hop to it" response from Republicans today.

Mr. Truman, in the down-to-earth lingo he used successfully in last year's campaign, told enthusiastic Democrats at Jefferson-Jackson Day dinners last night that Republicans are trying to "cripple" labor unions and hold minimum wages to a "starvation level."

And the capacity crowds cheered as he declared that "special interests" on Capitol Hill may compel him to board a train again soon "to tell the people how their government is getting on."

The White House declined to throw any light on what stumping plans the president may have in mind.

Eben Ayers, assistant press secretary, said he had nothing to add to what Mr. Truman said in his speech.

To Key West In March

Mr. Truman plans to go to Key West March 6 for a vacation lasting until March 19. Any train trip necessarily would follow later.

Mr. Truman, meanwhile, cancelled his usual weekly meeting with his cabinet today because of what Ayers said was pressure of work both at the White House and on the cabinet members themselves.

The Republicans, the president charged, want to destroy the farm price support program and force upon the government a "do nothing" policy which would let the American economy "slide into a depression."

To this, most Republicans had one answer:

Let the president first find out how he stands with his own party; then let him appeal to the people.

Sen. Brewster's Comment

Senator Brewster of Maine, chairman of the GOP Senatorial campaign committee, said the president seems to forget that he has a Democratic Congress.

"What's become of his majority in both houses?" Brewster asked. "The 81st Congress must be worse than he said the 80th was."

Senator Taft (R-Ohio) said Mr. Truman is all wrong in attacking the Taft-Hartley labor law. Taft said he thinks Mr. Truman will find that out in any check of the country.

Senator Bricker (R-Ohio) said it seems to him that the president recognizes that his own party doesn't agree with him.

Senator Morse (R-Ore) remarked that if the Truman program has bogged down, as the president seemed to indicate, it is "because there is no united support on the Democratic side of the aisle."

Showed Approval by Applause

Democrats at the dinners showed their approval of the speech by applause. Senator Pepper (D-Fla) especially liked the president's criticism of those who oppose repeal of the Taft-Hartley labor law. "Every word the president says has been confirmed in the Senate Labor committee hearings," Pepper said.

However, only eight of 21 southern Democratic senators who oppose Mr. Truman's civil rights program were officially recorded as present for the dinners, held in the Mayflower and Statler hotels.

Absent, according to the guest lists, were such party stalwarts as senators George and Russell of Georgia, Byrd of Virginia, Ellender of Louisiana, and Eastland and Stennis of Mississippi.

Found Dead Beside Car

CANTON, Mo., Feb. 25.—(AP)—Fred Huffman, about 38, was found dead beside the wreckage of his overturned truck on Highway 61 two miles south of Canton early today. He was returning home to Canton from Quincy, Ill., where he worked as a welder.

Coroner Earl Barkley said there would be no inquest.

Buying Modern Handcuffs

DETROIT, Feb. 25—(AP)—Handcuffs that are 25 years old are no kind of equipment to operate with in this day and age.

On that plea Wayne (Detroit) County Sheriff Andrew Baird got the board of auditors' approval to spend money for new ones.

A Practical View

DETROIT, Feb. 25.—(AP)—Edward J. Gwozdz, asking a favor of probate court, took a practical point of view.

His petition that his name be changed to "Nail" was granted when he explained that was the literal translation from the Polish and a simple way out.

The Daily Washington Merry-Go-Round

by Drew Pearson

WASHINGTON, Feb. 25—The historic journey of 49 French "40 Men-8 Horses" boxcars through the USA is just about over. Except where heavy snow delayed the ceremony the boxcars have all been delivered.

The French committee of railroadmen, who spent months collecting the gifts that filled these cars, did not have the pleasure of seeing President Truman. Although urged to attend, Truman went to a concert a few blocks away from where they stood in the cold, presenting their gesture of friendship to the people of Washington.

Nor did George Allen, the assistant secretary of state who annually asks Congress for several million dollars to promote cultural relations with the rest of the world, take the trouble to go out in the cold to greet the visiting Frenchmen.

The French gratitude train committee had performed this momentous task without one cent of help from Mr. Allen's budget or from any U. S. source; yet the state department, though specifically requested to do so, was not willing to send automobiles to the railroad station to meet the French visitors in Washington.

However, vice president Barkley together with Senators Vandenberg and Connally with Attorney General Tom Clark and undersecretary of state Jimmy Webb were out in the cold to greet the French.

Governors Did Selves Proud

And a great many governors, mayors and patriotic citizens were far wiser and more hospitable than the state department. Governor Tom Mabry of New Mexico sent his patrol cars across the desert to bring the French committee to Santa Fe; Governor Frank Carlson got up early in the morning and rode with them all through Kansas. Governors Scott of North Carolina and Clements of Kentucky threw open their homes. Governors Gibson of Vermont, Dever of Massachusetts and Pastore of Rhode Island staged special dinners and lunches. Governor Warren of California traveled all across his state to greet them.

And so on — The hospitality list list of the American people is too long to mention here and the net result is that these Frenchmen are going home enthusiastic rooters for the USA. They did not get to know Washington officialdom but they did get to know the American people.

They were made Kentucky colonels, honorary citizens of Dallas, honorary members of the Lions club of Cheyenne, Wyo., inspected the great Goodyear rubber plant at Akron, watched the Pueblo Indians dance in New Mexico and enjoyed the charm and hospitality of the south. And they are going back to France better ambassadors for the USA than 100 Jefferson Cafferys. For Jefferson Caffery — a better than average ambassador — mixes only with the French upper crust, who are friends of the United States anyway.

These French railroad men, on the other hand, mingle with the workers of France — the people the Communists are trying to wean away and who to some extent have already been weaned away. They will mingle with the real people of France and they will be better ambassadors than any we have sent to Paris since Benjamin Franklin.

Spread Gospel of America

Take the case of M. Charles D'Hagues, a shop foreman of the French railways, as a member of the Gratitude Train. He appeared before the joint legislatures of more states than Secretary of State Dean Acheson and probably as many as President Truman—the legislatures of Vermont, Arizona and New Mexico. M. D'Hagues is from the backbone of France and he has met and mingled with the backbone of America. Thanks to the reception he received here, he is going back to France, back to his job as a shop foreman, to spread the gospel of America. He will be a great ambassador.

Most of our official ambassadors give dinners and cocktail parties to which the upper crust of government are invited but it's the people of European countries, not the upper crust, who are deciding issues today. And while Secretary of State Acheson was so busy negotiating a North Atlantic pact that he could not greet the visiting Frenchmen he overlooked the fact that no treaty is worth more than the paper it's written on unless public opinion backs it up, and that arms shipped to Europe may fall into the hands of an enemy unless the men of Europe are ready to stand up and use those arms.

That is one of the most important points missed by the high-up planners of the state department and the Pentagon. They are so far up in the stratosphere, so busy writing pacts and shipping arms to Europe, that they forget about people.

Friendship Foundation Needed

The government of France which signs the North Atlantic pact may be out of office the following day. But the people of France go on forever. And as long as the French people stand with the American people we build on a foundation far more solid than pacts or treaties.

What most Americans don't realize is that Moscow, up until a year ago, had made great inroads upon the French and Italian people. Approximately one-third of them voted Communist. Moscow prides itself on having a hold on people — all its propaganda is directed to that goal, not to governments. Despite this, 6,000,000 French people — in answer to the Friendship Train — organized a train of gratitude to the United States. They did this without any inspiration from their government on a purely people-to-people basis.

ADD WASH MERRY GO ROUND

Stalin probably would have given his left arm had the French people sent such a train to Russia, because he specializes in winning over people. But the French didn't send it to him. They sent their train to the American people instead.

And that's why, despite the cold-shoulder given the Frenchmen by President Truman and the state department, the receptions accorded them by the mayor Joe Smiths of Oakland, California, and the mayor William O'Dwyers of New York and the mayor George Welches of Grand Rapids and the mayor Fletcher Bowrons of Los Angeles and the mayor Jim Curleys of Boston and all the others were so important.

For they saw the importance of this people-to-people government and they, together with the governors and a large part of the rest of the American people, gave the French the rousing welcome they so well deserved and will always remember.

POP Goes the QUEEN

THE STORY: John Henry and Sin Conover, vacationing at a swank resort, witness the death of a mysterious man named Homer Anglin. Later the Conovers' cottage is occupied by Faye Jordan, due to a "reservation mixup" and their luggage is searched when it is moved. The searchers don't find a cipher message in a mechanical pencil which Anglin slipped into Johnny's pocket before he died. Johnny is taken to a gambling ranch by Faye where he is drugged. Meanwhile, Sin found herself in company with Sagmon Robottom, an archeologist, who frightens her by telling her not to "interfere." Sin breaks away from Robottom and runs to her cottage.

* * *

XVIII

SIN flung herself across the bed. She was still panting with fright. And exertion.

Their clothes were scattered haphazardly around the bedroom. The two big suitcases yawned toothless on the bed. Sin had locked herself in the cottage and was obeying Sagmon Robottom's warning as quickly as possible. She gathered up an armful of lingerie and hurled it into the emptier suitcase.

When she picked up her husband's brown dress shoes, her lip commenced to tremble. Where was John Henry? It wasn't like him to dash off like that without a word unless—Sin's heart thudded faster than ever—unless he had learned something about the murder. Why did he insist on getting mixed up in things that were none of his business?

Sin wrapped the shoes in tissue paper she had saved from the unpacking the night before. Surely nothing could have happened to him in a crowded resort like Azure. Yet he was so dumb sometimes about the most obvious things.

The shoe wrappings rustled as she laid the package on her stack of slips. She caught herself watching the redwood desk in the outer room—the desk that held the mechanical pencil and the cipher. There was always the police. Sin turned her back defiantly on the telephone. If she started the police looking for John Henry and he was perfectly all right, he'd be angry about all the fuss. Nevertheless . . .

Sin was still pondering the question perturbedly when she heard a door close softly in the next cottage.

She got up off her knees from atop the suitcase, letting the straps slip free. That was Miss Jordan's cottage next door and if she had come back then John Henry . . . Eagerly, she peeked through the slats of the window blind.

* * *

IT was not John Henry who had pulled the blue door to gently behind him and paused on the porch of Cottage 15. It was Gayner, his cadaverous face peering cautiously up and down the line of silent cottages. Then he stepped off the porch and started walking quickly down the flagstone path back to the hotel.

Sin opened the front door to her own cottage and stepped outside. Gayner had already vanished around a turn. Without reason, Sin began to run, anxious not to lose sight of him. Gayner was a tangible link between her and the tangled web that might have enmeshed her husband again. The assistant manager certainly was privileged to inspect the cottages whenever he chose—but something furtive in Gayner's manner warned her that this had been no official visit.

Gayner was just going through the glass doors into the Las Dunas lobby when Sin reached the sunken patio. She slowed her pace as she crossed through the gay umbrellas and lolling guests.

Somebody called her name behind her. Sin turned quickly, a hopeful smile beginning on her generous mouth. The smile aborted. It was Sagmon Robottom, his bronze face stern, sauntering toward her from the pool. Sin whirled and fled. "Mrs. Conover!" Robottom called again.

She rushed up the steps and into the lobby. Gayner had gone past his registration desk without pausing and was now going down the front steps and crossing the driveway. His walk was brisk and purposeful.

* * *

"YOU look like you're in a hurry," Thelma Loomis said in her semimasculine voice, as the two women dodged around each other at the front entrance.

"Thanks," Sin said automatically and kept going. Mr. Trim was just getting out of the elevator. He lifted his straw hat high as if to beckon Sin closer. She gave him a tight smile and didn't slacken pace. Vernon laboriously forced the glass door open for her.

Gayner's brown-suited back was still in sight through the driveway border of palms and tamarisks. He was about 50 yards in the lead. This had been cut to 25 by the time the assistant manager reached Coachella Street. Sin loitered behind the concealing bole of a palm while Gayner looked up and down the peaceful street. Then he darted across and went hurriedly down the hill toward the center of town.

Near the corner of Cahuilla Street, a block away from the Las Dunas, Gayner sidestepped suddenly and disappeared from sight. Sin's pulse quickened but she made herself amble along in a tourist gait. If Gayner had realized he was being followed, she didn't want to appear suspicious. She could just keep going downtown.

However, Gayner was apparently oblivious of his tracker. When she reached the spot where he'd faded from view, Sin found he'd merely angled sharply into a narrow alley. As she walked past, Gayner was 20 or 30 yards up the alley, opening the back door of one of the buildings.

The place looked familiar and it came to Sin why it should. Homer Anglin had died there. Gayner was letting himself quietly into the Ship of the Desert.

There are over 400 different kinds of ink . . . the so-called water soluble inks, take a long time and lots of patience to get complete removal. Most inks contain a logwood dye to make them permanent on paper, which is also permanent on fabric. In other words, no cleaner can guarantee to remove ink, because he has to have a try at it first. The so-called home remedies . . . lemon juice, milk, and a thousand more, only tend to make a mess, in your kitchen, on your garment and for your cleaner. 'Three American Composers' Music Club Program Theme

The Helen G. Steele Music Club presented a program on "Three American Composers" Wednesday afternoon at the Heard Memorial Club House. The meeting was opened by Mrs. E. F. Yancey, life president.

The stage was decorated with a large American flag and a bowl of red, white and blue carnations.

The sketches of the three composers, Stephen Foster, Victor Herbert and George Gershwin, were given by Mrs. Arthur Klang.

Mrs. Charles Maggard, co-chairman with Mrs. William Bunn, introduced Mrs. Klang.

Stephen Foster

Mrs. Klang said of Stephen Foster: He was,

"An individual who wrote songs for a whole people; who created music expressing the soul of a folk he did not know; scion of a family of ardent anti-abolitionists, he became the spokesman for the misunderstood negro; a musical best-seller whose compositions, translated and sung in every tongue, brought him no affluence—this contradiction in terms, was Stephen Foster. America's greatest folk song writer was born in a beautiful white cottage in Lawrenceville, Pennsylvania, now a part of Pittsburgh, on July 4, 1826. 'There is always something perfectly original about Stephen,' wrote his adoring mother, to one of her eight other children, but she was puzzled to know where it might find its expression. When, at the age of 13, he composed a waltz for a quartet of flutes, she might have suspected that music was his forte. But those were the days when practically the only music known to people west of the Alleghenies, was that of the minstrels, and the music-halls—when music was not considered among the manly callings, but was regarded as a pastime only, for those who had nothing better to do. There is no doubt that his musical ability was directly inherited from his beautiful, musical mother, who encouraged him as a very small child. Because of this, Stephen gave her his lifelong devotion, and all through his life he felt her influence. When Stephen was 20, his brother Morrison had gone into business in Cincinnati and he asked Stephen to be his bookkeeper. Often, instead of entering columns of figures, he would scribble lyrics on the ledger pages. From these scribblings came many of his melodies, among them the song which took the world by storm, 'Oh, Susannah.' Selecting the Swanee River from the Atlas because it filled his rhythm, he put the Swanee River, a small stream in Florida, into a class with the Rhine and the Danube, as rivers celebrated in song. I" Dream of Jeanie" and the many songs written with "Jenny" in the title, shows the affection he felt for his wife, Jane. Endeavoring to comfort the grief stricken parents of a young neighborhood child, who was instantly killed on a stormy winter night, when she ran into the path of a team of horses—Stephen Foster wrote "Gentle Annie." Alone, thin and wasted, at the age of 37, Stephen died in New York city—in poverty and obscurity."

Victor Herbert

Of Victor Herbert Mrs. Klang said:

Five years before Stephen Foster's death, Victor Herbert was born in Dublin, Ireland, on February 5, 1859. By birth an Irishman; by education a German; by adoption an American; by temperament a Bohemian—that is Victor Herbert — Cellist, Bandleader, Composer of light operas, the Play-boy of Broadway.

"If the "Gay Nineties" were gay, it was largely due to the operettas of Victor Herbert who "composed by the yard—and all good." Each is somebody's favorite: "Naughty Marietta"; "Babes in Toyland"; "The Red Mill"; and all the rest. It was in the midst of intense living—composing, conducting, rehearsing, relishing good food—that he suddenly collapsed May 26, 1924, leaving a host of colorful memories; The composer standing at his high desk like a clerk in an English counting house; in frock coat and topper circling the great entertainment belt of New York City; his 250 pounds resplendent in a red and gilt uniform leading his band up 5th Avenue; or playing the dance music at Mrs. Bradley Martin's famous balls—pictures which will endure as long as his operettas.

"Victor Herbert Favorites" arranged by Gregory Stone, played as two piano number by Miss Teufel and Mrs. Ewing.

George Gershwin

Telling of Gershwin Mrs. Klang said:

George Gershwin, the composer whose works opened the doors of many concert halls to jazz, as an honest musical medium, was born in Brooklyn, September 26, 1898. He displayed his first interest in music at the age of 10—nine years before he composed his first musical comedy, "La La Lucille."

George Gershwin was a soft-spoken man, candid and friendly, sometimes a little shy. He never married, but lived with his mother and brother Ira, composer of the lyrics for "Of Thee I Sing."

The 38-year-old composer was ill only two weeks. He collapsed at a motion picture studio where he was writing songs for a new musical. X-ray examinations disclose a brain tumor which had been growing amazingly fast. His physician telephoned for Dr. Walter Dandy of Baltimore, a former Sedalian, asking him to fly to California. Gershwin never rallied from the brain operation, an unusually difficult one.

Getting Along Together

A man who has spent some time in a New York City hospital was asked how he had liked living under the same roof with patients of different creeds and color. He replied by saying: "My experience has convinced me of one thing: That differences of race or religion wouldn't mean a thing anywhere if people would only judge people by what they are inside."

"What I want to say," he explained, "is that when a man is kind and sympathetic, when he is willing to listen to your troubles and tell you his, you tend to forget whether he is a Jew or a Negro, a Catholic or a Protestant. I saw so many deeds of kindness on the part of my fellow patients that I would be ashamed ever again to judge a man by the color of his skin or by what church he attends.

"I was particularly impressed by the case of one old man, a Catholic, who had been warned by the doctors not to spend too much time in bed and to eat more if he wanted to keep up his strength. The old fellow was pretty despondent, and would have become hopelessly bedridden if another patient, a Jew, had not made it his business to keep after him, patiently coaxing him to get out of bed more often, persuading him to eat. It was really marvelous to see a man who was himself pretty sick show such consistent interest in another patient. He may well have saved the old man's life."

The former patient thought for a moment, then continued: We had Negro patients whose cheerfulness and homely philosophy brightened many a dreary hour. It was a revelation to see how offhandedly friendly whites and Negroes were with each other.

"We had Jewish and Christian doctors and white and Negro nurses. They worked well together and they all had the same spirit of sympathy and kindness. In a hospital it doesn't matter whether the services a patient needs are performed by a white hand or a black hand. What is important is their constant readiness to help."

"I haven't ever given much thought to questions of interracial or inter-religious cooperation and good will," the ex-patient went on, "but I must say that what I have seen during my hospital stay has convinced me that getting along with other people, whatever and whoever they are, should be the easiest thing in the world. The important thing for a lot of us, I guess, is to give it a try."

CHRISTIAN SCIENCE CHURCHES

"CHRIST JESUS" is the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, February 27, 1949.

Golden Text: Isaiah 11:1.

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Therefore let all the house of Israel know assuredly, that God hath made that same Jesus, whom ye have crucified, both Lord and Christ." (Acts 2:36) The Lesson-Sermon also includes the following passage from the Christian Science Textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Jesus represented Christ, the true idea of God. The Christ-idea, or the Christ-man, rose higher to human view because of the crucifixion, and thus proved that Truth was the master of death. Christ presents the indestructible man, whom Spirit creates, constitutes, and governs. Christ illustrates that blending with God, his divine Principle, which gives man dominion over all the earth." (p. 316)

Study Hour

Jehovah's Witnesses will hold a study in the Watch Tower subject, "Earth's Destiny After This World's End." Rev. 20:10 and 21:1. Followed by a study "The Typical Theoracy" taken from the book "Thy Kingdom Is At Hand," Sunday 2:00 p. m., Kingdom Hall, 721 East Third street.

Sunday School Lesson

'Of Such is the Kingdom of Heaven'

By William E. Gilroy, D. D.

It was of little children that Jesus said the above (Matthew 19:14). He also said, "Blessed are the poor in spirit, for theirs is the kingdom of heaven." (Matthew 5:3.)

It is the child-like whose characters can be formed by God. Those whose very poverty of spirit makes possible their enrichment by being filled with the Spirit of God are fit suubjects of Christ's kingdom.

Such declarations reveal and emphasize what Jesus meant whenHe said, "My kingdom is not of this world." He did not mean that the kingdom was remote, somewhere else, or in a far-off future. On the contrary He said that it was here and now. It is "within you," or "in your midst," in whichever way we may translate His words.

The point was that, being here and now, and in this world, the kingdom, which He proclaimed was not of this world because its nature and principles were different from those of the kingdoms of this world, and the ideas, rules, and principles that govern earthly kingdoms.

Not poverty in spirit, but physical strength, brute force, aggressiveness, conquest and dominance, have been the historic and characteristic ends of worldly kingdoms If peoples or governments have displayed anything better, it has only been through ideals akin to those proclaimed by Jesus.

These nobler ideals have been instrumental in creating such institutions as the Children's Bureau, and all the various agencies now devoted to child welfare. But when the disciples rebuked the mothers who brought their children to Jesus for His blessing, they were only reflecting the conventional attitude concerning children in the worldy kingdoms. We know full well to what an extent these worldly kingdoms have valued children in terms of military strength. Napoleon brutally expressed it, when he described the ideal woman as the one with the most sons.

The principles of the kingdom that Jesus proclaimed were love and service; not getting, but giving. "It is more blessed to give, than to receive."

To the materially minded it seems visionary and impractical. But picture what the world would be, if, instead of 20 centuries of acquisitiveness and aggression, we had had 20 centuries of the practice of the Golden Rule, founded in the love of God and in brotherly love.

Training School To Open Sunday

The Community Training school for Sunday school teachers and leaders will begin Sunday, 2:00-4:00 p. m. and continue four nights next week, Monday, Tuesday, Thursday and Friday 7:30-9:30 p. m. All classes will be held at the Service Building of the Broadway Presbyterian church. In addition to the courses of study there will be a series of sound movies on "The Land Where Jesus Lived" and other interesting activities during the intermission period.

According to Rev. William C. Bessmer, dean of the school, it is expected that a number of Sunday school teachers and leaders from nearby communities as well as from the churches in Sedalia will enroll for the courses which are taught by competent teachers of considerable experience.

The courses to be offered are: "Guiding the Religious Growth of Juniors," taught by Mrs. Doras Herndon; "Guiding Youth's Approach to Religion," taught by Rev. Homer Keith; "Education for Missions and World Friendship," taught by Rev. E. Norman Webb; "Helping Leaders Improve Their Work," discussion group with various leaders.

Wrangle on Interest Bill

House Group Took No Action on Two Measures

JEFFERSON CITY, Feb. 25—(AP)—James A. Davis, executive secretary of the State Industrial Union Council, warned House Democrats Thursday there would be a big turnover in the legislature if a 27 per cent interest rate bill is passed.

Davis' remarks were made to the House commerce committee which is considering two conflicting interest rate bills for Missouri lending agencies.

"If you Democrats saddle a 27 per cent bill on the people of this state of Missouri, there'll be as many new faces in the next legislature as there was in this one," Davis said.

Davis referred to the Democratic landslide that swept Missouri Republicans out of office in the last election. Labor leaders have attributed the turnover to the stand of the legislature on labor legislation.

Davis was speaking against the Snyder-Cruce 27 per cent interest bill and in favor of the Roos proposal. The Snyder-Cruce measure sets a 27 per cent rate for loans up to $400 and 24 per cent for loans up to $600

Renew Issue Tuesday

After a 30-minute closed door session, the committee quit without taking action on either of the proposals. Rep. Ray Adams (D) of Reynolds county, chairman, said the committee would continue its discussion next Tuesday.

One of the members, asked why no action was taken, replied: "We got into an argument."

Under the Roos bill, which is the result of work of a citizens committee, the rate would be 24 per cent on loans up to $100 and on a sliding scale downward to 9,6 per cent for loans up to $2,500.

Davis termed the interest in the Snyder-Cruce proposal excessive. He said he had heard everything today when he heard the committee ask for unlimited rates on loans of $25.

He referred to a statement by Roy D. Miller of Columbia, executive vice president of the National Educational Research Finance Association. Miller had urged even higher interest rates than the 27 percent. He said no rate could be high enough to cover costs of making $25 loans.

Davis asked the committee to be reasonable and "get the rate down to where every person can borrow without being hurt."

The committee closed hearings on the Snyder-Cruce proposal after previously hearing testimony on the Roos bill.

In general, supporters of the Roos measure opposed the Snyder-Cruce bill and Snyder-Cruce proponents lined up against the Roos measure.

Small loan companies testified for the Snyder-Cruce bill while the Roos bill has the backing of a large segment of organized labor.

Every Little Bit Helps

Although blockaded Berlin is having one of the mildest winters in many years, the fuel ration is still too small for many families. To supplement the 25-pound coal allotment, this schoolboy reached through a fence to snare a bit of wood. On his way home from school, he'll pick up every twig he can find. Stock Feeders Association Creates Office

For Sheep Producer Who Charges They Favor Hogs, Cattle

KANSAS CITY, Feb. 25—(AP)—Sheep producer E. H. Mattingley of St. Louis won't be accusing the Cornbelt Stock Feeders Association of being exclusively hog and cattle minded now.

Mattingley made the charge at the association's annual convention here. Members promptly created a new office of second vice president and elected Mattingley to it at their closing session yesterday.

C. B. Watson, DeKalb, Ill., president of the Illinois Livestock association, was elected president of the feeders after Lawrence Brock, Wakefield, Neb., refused a sixth term.

Herbert Barr, Leoti, Kas., was named first vice president and Mark W. Pickell, was re-elected secretary-treasurer.

Stand on Legislation

The Association placed itself on record of opposition to legislation proposing President Truman be given stand-by price controls and to the repeal of the Taft-Hartley act.

It called upon hotels and restaurants to reduce prices of meat course dinners in conformity with declines in wholesale meat prices. It also urged both labor and manufacturers to reduce prices in conformity with lower agricultural prices.

Included among other resolutions were:

A request that President Truman declare the emergency in livestock ended and raise the import duty on Canadian cattle.

Other Recommendations

A recommendation that any necessary federal control of agricultural exports be placed under supervision of the department of agriculture and be managed by a presidential commission.

An appeal for federal action to restore American lard exports to the 1920-39 annual average.

The organization called on the department of agriculture to adjust hog support prices between Chicago and river markets such as Kansas City, St. Joseph and Sioux City to the spread that existed in 1948. It recommended that army buyers and private conumers able to store meat, purchase surplus quantities now available against summer consumption when supplies are expected to be short.

GM Cuts Prices, Wages

(Continued from Page One)

1948. The December-January reduction was attributed more to lower prices for apparel and house furnishings rather than lower food prices. However, drops were recorded on meats, eggs, fats and oils, and dairy products.

The auto union called the index report "a welcome economic sign." A 'pay cut' but as an indication that prices are on the way down," the union said.

GM Insincere

T. A. Johnstone, assistant director of the union's GM department, made the comment in a statement in which he attacked price policies of General Motors and the car industry in general.

He said the industry has raised prices the last quarter "without benefit of wage increases as an excuse." This, he said, has exposed the "hypocrisy" of the claim that increased wages necessitate higher prices.

Johnstone said that if General motors were "sincere" it now would reduce prices "immediately."

GM pays its production workers $1.65 an hour.

The January 15 index announced today was 170.9 per cent of the 1935-39 average. That was considered a normal period, and is figured at 100.

Should Ask For Needed Bases

WASHINGTON, Feb. 25.—(AP)—Kansas publshed Dolph Simons said today the state department should stop "pussyfooting" and ask firmly for any needed military bases abroad in exchange for American aid.

Simons, of the Journal-World, Lawrence, Kas., has just returned from a six-weeks round-the-world plane trip. He accompanied Vice Adm. Robert B. Carney, deputy chief of naval operations, on an inspection of naval installations.

"I think we are justified in helping the foreign countries to improve their economies and to make repairs," Simons said.

"But I think we should ask something in return. We have every right to expect a fair exchange. In not asking this, I think the state department pussyfoots too much.

"We have shown through the years that we are not imperialistic—that we do not want to build up colonies. What we want is dependable friends."

Southerners Invited Back

JACKSON, Miss., Feb. 25.—(AP)—Two high-bracket Democrats last night invited southerners who bolted the party to come back into the fold.

In a speech here to Democrats attending a Jackson-Jefferson Day dinner, Army Secretary Kenneth Royall called for unity among the leaders and the rank and file of the Democratic party.

The party's southern wing was disjointed last fall by the states rights Democratic movement.

Royall, speaking as a "southern Democrat and not as secretary of the army," expressed the hope that all members of the Democratic party "will compose their differences and unite in an undivided and confident democracy."

At Nashville, Tenn., House Speaker Sam Rayburn declared there is "enough room in the tent for all who come back into the fold."

The Texan's invitation to the states righters was also issued at a Jackson-Jefferson dinner.

Boggess Four Talent Quest First Winners

"The Boggess Four" Laveida, 27, Bobbie, 25, Harvey, 20, and Udell, 18, a family quartet of brothers and sisters, won first place in the third Talent Quest held at the Fox theatre Thursday night. They are the sons and daughters of Mrs. L. A. Boggess, 416 West Cooper street, and their late father was the band instructor and also manual training teacher at the Hubbard high school for a number of years. The song with which the group won the contest was "Cool Water" with all four singing and Laveida at the piano. For an encore they sang: "Sentimental Journey."

Winning second place was Karl Brosing, Jr., 18, son of Karl Brosing, Route 1, Sedalia. The young baritone, student at Smith-Cotton high school, singing the "Whippenpoof Song" won a round of applause that put him unmistakably in second place and as an encore he sang again the chorus of the "Whippenpoof Song." He was accompanied by Miss Dorothy Ann Reed at the piano.

Acts Well Received

The other seven of the nine acts were also well received by the audience. The acts included a "Blacklight Waltz Clog" by a young dance team, both eleven years old and pupils of Pegee Hewitt. They were Deanna Williams and Leatrice Koenke, of Cole Camp. The second number was Doyle Ross Mabry, 21, 2107 South Missouri avenue, who gave a piano solo, "A Waltz for Ada," which was his own composition. Jack Mullineaux, 22, of 666 East Thirteenth street, and Junior Guyman, 217½ South Ohio avenue, presented a guitar and vocal duet and also a comic skit which brought many laughs from the audience. 'Go to Church' Ad Campaign

LOS ANGELES, Feb. 25.—(AP)—A nationwide "Go to Church" advertising campaign is about to break.

The idea of churchgoing will be promoted on a nonsectarian basis through newspapers, magazines, radio, television, movies and billboards. A group of prominent laymen figure it's time to spread the religious word in a modern way.

"We see no reason why advertising can't be used to sell the word of God," says William Jeffers, railroad executive, who is honorary vice chairman of the campaign.

Dr. Ray Lyman Wilbur, Stanford University chancellor, is honorary chairman.

Other honorary vice chairmen include Gov. Beauford H. Jester, Texas; Commentator Lowell Thomas, Gene Tunney, film producer Walter Wanger and President A. F. Whitney of the Brotherhood of Railroad Trainmen.

Newsmen Meet To Talk Shop

JEFFERSON CITY, Feb. 25.—(AP)—Many of the men who make Missouri's newspapers came to Jefferson City today for their annual session of shop talk.

It was the Central Missouri Press Association meeting. The group includes 28 counties through the center of the state from St. Louise to Kansas City. Visitors from other sections also attended, including a big delegation from the Northwest Press Association.

The dinner speaker tonight will be Roy A. Roberts, president of the Kansas City Star. Gov. Forrest Smith and Lt. Gov. James T. Blair, Jr., are on the program for informal talks.

James C. Kirkpatrick, president of the Central Missouri group, said about 200 are expected.

Not a Picture She Wanted

LONDON, Feb. 25.(AP)—Mrs. G. Beeton never approved of the painting her artist husband left her. It is a nude woman stabbing herself.

So she shipped it off to a village auction one day and sold it for 50 shillings ($10).

The buyer—an antique dealer—traded the picture to a salesman for a $56 typewriter.

The salesman showed it to an art expert.

Yesterday the picture was sold to a dealer. It brought 3,200 pounds ($13,800.)

The painting was described as "The Suicide of Dido," by the 17th century Flemish master, Peter Paul Rubens.

Told of the sale, Mrs. Beeton commented: "It wasn't a picture anyone would want about the house."

He's a Leak-Smeller-Outer

At 62, David Wilson is still agile enough to scamper around the high scaffolding of the Pacific Gas and Electric Company's San Francisco plant, smelling out leaks in the natural gas storage tanks. Wilson has been with PG and E for 25 years. When he sniffs or sees or hears a leak, he patches it up. Height doesn't bother him.

Los Angeles Judge Successful In Mending Marriage Rifts

LOS ANGELES, Feb. 25—(AP)—A divorce is not the easiest way out.

This statement, backed by convincing argument, enabled Superior Judge Thomas J. Cunningham today to describe his month-old experiment in mending broken marriages as a "success far exceeding expectation."

He has considered the marital troubles of 77 couples during his brief term on the domestic relations court bench. Here are the happy statistics:

Eighteen complete reconciliations, and 35 more couples granted 30 to 60-day continuances to give their marriages another try. Only 24 couples failed to make up. This means the 43-year-old jurist forestalled 70 per cent of the prospective divorce cases brought before him.

Considers Possibilities

"The first thing I do when I enter the courtroom," Judge Cunningham told a reporter, "is to ask if anyone present feels a reconciliation is possible. Some times the wife, some times the husband, and often an attorney will say yes.

"Then I call the couple and their attorneys into my chambers for a conference. Parents of the couple are not admitted. I can tell within 15 minutes whether the couple can be reconciled.

"If the chances look good, I explain what will happen if they proceed with their divorce. I tell the wife that she probably will marry again and that her second husband is bound to be jealous of the children of her first husband.

More Money Troubles

"I tell the husband his next wife will resent his having to pay alimony. I point out that if he is having money troubles now, they will be much greater with two households to support.

"It's surprising the number of couples—especially young ones—who don't realize the difficulties and troubles resulting from divorce. And it's amazing the trivial things that start arguments which end in divorce."

The jurist, who has three children of his own, stresses the hardships divorce brings to youngsters.

"Three out of five couples who talk about the give and take of marriage aren't willing to give and take," he declared. "They think selfishly, especially where their children are concerned."

He plans to investigate a year from now to determine the permanent results of his successful experiment.

MADISON, Wis., Feb. 25—(AP)—President Truman "should take the offensive for peace and test Premier Stalin's sincerity," Norman Thomas wrote today in the Progressive Magazine.

The President "should propose comprehensive disarmament under effective international controls" the six-time Socialist party candidate for the president said.

"He could do this by hiding out a day or two from the boys in the State Department and Pentagon building and composing a message to Stalin. This would help retrieve for America vital ground lost on moral and phychological fronts of the cold war as a result of costly blunders by our officials.

"Strategy must be met by strategy," he added.

Track-Field Annual Indoor Meet Tonight

Big Seven Stars Have Hopes of Breaking Records

By Skipper Patrick

KANSAS CITY, Feb. 25—(AP)—Big Seven conference track and field stars have hopes of bettering at least four records in their annual indoor meet starting tonight.

The meet, in Kansas City's municipal auditorium, is a two-night affair for the first time in 21 years.

Preliminaries are scheduled in all events except the high jump and mile relay tonight. Championship finals start at 8 p. m. (CST) tomorrow.

While Coach Tom Botts' Missouri Tigers are favored to win their third successive indoor crown, the Missourians are not likely to have a monopoly of the individual stars.

Rollin Prather, one of four defending champions, probably will retain the shot put title. The husky Kansan state star set the league record at 52 feet 4⅜ ins. last year.

Other Defenders

Other defending champions who will appear in the preliminaries include Loyal Hulbert of Nebraska, the 440-yard king; Jim Martin, also of Nebraska, in the half-mile, and Bob Karnes, Kansas' two-miler. Bill Carroll of Oklahoma; Clare Gregg, of Colorado and Justin Knapp of Missouri, who shared the pole vault laurels at 12 feet 11 inches last year, also are re-entered.

At least four records are in danger. They are the 60-yard dash mark of 6.3 seconds shared by five men, the 1:56.5 standard in the half-mile, the mile's 4:18.6 and the 9:36.9 two-mile clocking.

Dick Hutton, Nebraska's football halfback, has run the 60-yard dash in 6.2 seconds three times this winter and if he meets the test on the boards he will better the record, oldest mark on the books.

McGuire May Break Record

Kansas' Pat Bowers, a thick-legged sophomore from Chicago, owns a 1:56 in dual competition, which is five-tenths of a second below the record set by the late Bill Lyda, Oklahoma, in 1942.

Bill McGuire, Missouri's sensational sophomore from New York City, appears capable of breaking either the mile or two-mile record. He has a 4:15.4 in dual competition, three and two-tenths seconds under the record, and has the stamina to crack the two-mile standard of 9:36.9.

Bob Karnes of Kansas, the 1948 indoor and outdoor two-mile champion, may run only in the 2-mile in which case he would be a threat for a new record.

The Big Seven faculty committee also was to begin its annual February meeting today. Only routine matters were on the agenda, according to executive-secretary Reaves Peters.

Sedalia Vets to Play Mexico

The Sedalia Vets, a Negro basketball team will meet Mexico veterans at the Hubbard high school tonight at 8:00 o'clock.

This will be the first time the teams has faced each other on the court this season

A preliminary game will start about 7:30 o'clock between elementary school teams of Sedalia and Mexico.

Kentucky U. Takes 16th Straight Win

NEW YORK, Feb. 25—(AP)—Kentucky, the nation's No. 1 collegiate basketball team, chalked up its 16th straight victory last night.

The NCAA champs had to come from behind to beat Xavier of Cincinnati, 51 to 40. Xavier, beaten by Kentucky 96-50 only two weeks ago, held a 34-30 edge with nine minutes left. A turnout of 13,000 saw the game at the new Cincinnati Garden.

Kentucky now has won 24 of 25 games. Its only defeat was a two-point setback by St. Louis back in December.

Western Kentucky, ranked 7th in the latest Associated Press poll, easily won its first round game in the Ohio Valley conference, smacking Tennessee Tech. 73-42.

Hamline, No. 15, dumped Augsburg, 73-38. Other teams in the top 20 did not play.

Kansas State piled up a 30-14 halftime lead and went on to easily lick Kansas, 63-36, in a Big Seven tilt.

The victory was the Wildcats' second conference victory over Kansas. Forward Rick Harman's sharp shooting put them ahead 30-14 at the half.

Kansas enjoyed a 4-4 tie, but after that was never able to make a contest of it. Harman scored 20 points for Kansas State. Gene Petersen led Kansas with 11.

It was Kansas State's sixth league victory against four defeats. Kansas has won 3 and lost 6.

Dave Douglas Led Golfers

HARLINGEN, Tex., Feb. 25—(AP)—Dave Douglas of Wilmington, Del., who has won $2,055 along the winter golf tournament trail, led the pack into the second round of the $10,000 Rio Grande Valley Open today.

Douglas spread-eagled a field of 123 yesterday as he shot an eight-under par 63 for a two-stroke lead and tying the competitive course record.

Tied for second place at 65 were Al Smith of Winston-Salem, N. C., Bob Hamilton of Landover, Md., and Henry Ransom of St. Andrews, Ill.

Six more professionals deadlocked for fifth place at 66. They were Harold Oatman of Norfolk, Va.; Herman Keiser of St. Andrews, Ill.; Rod Munday of York, Pa.; Fred Haas, Jr. of New Orleans: Eric Monti of Santa Monica, Calif., and Lenad Gibson of Kansas City, Mo.

S-C To Play Slater Tonight

The Smith-Cotton team after defeating Boonville Catholic high school, 74-25 in the first round of the Sub-Regional basketball tournament being staged at the Missouri Valley College will be matched against Slater tonight at 6:00 o'clock.

Slater defeated Smithton by a score of 49-38, and the Carrollton team won 34-27 over Pilot Grove.

Sweet Springs, the only team in the upper brackets that will give Sedalia a run for its money if they meet in the finals, defeated Kemper by a score of 66-38.

The semi-finals and finals will be played Saturday night. The first game will get underway at 2:00 o'clock in the afternoon, and the championship game will start at 9:00 o'clock.

A third place game will be played Saturday evening at 7:30 o'clock.

Teams in the lower brackets which played Thursday night were: Malta Bend Houstonia, Marshall, Nelson, Hughesville, Wakenda, Boonville and Blackburn.

Hubbard Tigers Drop Game

The Hubbard Tigers dropped a conference tilt to the Jefferson City team by a score of 60-45, Thursday night in a fast moving game on the Hubbard court.

Paced in scoring by Williams with 30 points, Lincoln was a hard team for Hubbard to handle, especially with Fitzpatrick suffering a sprained ankle and only played occasionally.

The first quarter ended 22-11 in favor of Lincoln, but the intermission score was in favor of Sedalia by one point-26-27 During this quarter, Coach Broadus sent in Fitzpatrick.

With the deadly shooting of Mason who tallied 20 points, the Tigers kept up with Jefferson City, but fell off during the last quarter.

There are two conference games left. They will be played next week, the first with Boonville, here Tuesday night and the other with Hannibal there the following night.

The next three nights, March 3-4-5, the Tigers by winning the regional meet last Saturday will enter in the state tournament being staged at Jefferson City.

NEW YORK, Feb. 25—(AP)—If Ford Frick wears a pained expression these days, it's because he was asked the other day if baseball's Hall of Fame might be moved down to New York City 'Where somebody can see it." The National league president made it clear they will move the shrine from Cooperstown only over his prostrate body. "I have not talked to a single man who has visited Cooperstown who has not gone away 100 per cent enthusiastic," Frick declared. "I certainly would not favor tossing overboard the work that has been done at Cooperstown to bring the Hall of Fame to New York, where it would be lost in the shuffle of a big city." Last year more than 70,000 persons found their way to the little upstate village and paid admission to the horsehide museum. A new $150,000 wing is to be added next summer, Frick disclosed.

Viewers With Alarm

What's to be done about the towering players who have converted basketball into a scoring carnival in which the average-size youth is at a hopeless disadvantage? Irv Marsh in "Sports Illustrated" says flatly that the once-great game has gone to pot and lists some nationally known coaches who agree with him that something must be done to cut the tall man down to size, such as widening the foul lane from three to six feet. His fellow viewers-with-alarm include Vadal Peterson of Utah, Nat Holman of C.C.N.Y., Blue Foster of Oklahoma, Tony Hinkle of Butler, Howard Hobson of Yale and Forrest Cox of Colorado.

Rackley Rambles to Make Fan of Grandma at 82, And Dodgers Are Not Daffy Any More

Granny Adams shows Marv Rackley just how she spent summer afternoons keeping track of her favorite player.

By Charles S. Collins
NEA Special Correspondent

WESTMINSTER, S. C. —Baseball is a great game even if you wait until you're past 80 to learn it, but as far as Granny Adams is concerned they needn't bother to play it anywhere but in Brooklyn, or wherever the Dodgers happen to be.

For Granny Adams' favorite player, you see, is Marvin Rackley, the fleet young man who played so much centerfield and led off for the Brooklyn last season.

Granny Adams, now 82, had never given baseball more than a passing thought when two years ago her granddaughter, Hazel Cleland, married Marv Rackley.

The bright eyed Mrs. R. L. Adams has never laid eyes on Brooklyn, Ebbets Field or an umpire being razzed in Flatbush style, but the spirited little woman reckons "it must be a right nice place 'cause they like Marvin there."

And the Dodgers aren't daffy any more either, according to her.

"They got Marvin to play for 'em, didn't they?" she says. "I'd like to know what's daffy about that?"

From the time Rackley was recalled from Montreal last summer, Mrs. Adams stationed herself in an old-fashioned rocking chair at game time and kept her ear glued to the radio in her Westminster home.

A station in nearby Greenville, which insisted on switching about to broadcast games from various major league cities, annoyed Granny no end. If the game involved the Dodgers, it was a fine station, but if two other clubs were playing it wasn't much account.

"Switch the thing off," she'd command.

You won't stump Granny on anything Rackley has done in baseball. She doesn't hesitate to tell you her favorite batted .327 in 88 games in 1946 and that the only ones higher were Stan Musial of the Cardinals and Richie Ashburn of the Phillies.

Neither is Mrs. Adams hesitant to inform listeners that Marvin led the International league in stolen bases in 1946. This is because last season she read several stories claiming the honor for teammate Jackie Robinson. She's right, too, for Rackley. tabbed Mr. Quick by fellow players, pilfered 65 bases that season, leading Robinson by 25.

Marv Rackley, who is spending the winter remodeling his Westminster home, learned baseball while playing with Oconee Mills here, a textile club which year after year fields one of the fanciest semi-professional outfits in baseball-mad South Carolina.

"What makes me mad," snaps pert Granny Adams, with genuine remorse, "is that for 80 years I didn't know what I was missing."

Best Contract Ted Williams Has Ever Had

Reports Are The Slugger is to Get $100,000

By Bill King

BOSTON, Feb. 25—(AP)—Reports, none of which can be traced directly to Red Sox slugger Ted Williams or general manager Joe Cronin, are that the American league's .365-batting champion is baseball's first $100,000 player.

Cronin said Williams phoned him from his favorite fishing grounds in Everglades City, Fla., last night that he would sign his 1949 contract when he arrived at Sarasota training camp on March 6.

"Ted said he was very happy about it and that he and his family were in excellent health," Cronin reported as he set himself for some sharp questioning.

"Are you giving Williams $100,000?"

"I told you Ted was very happy about his new contract," Cronin, a strict upholder of owner Tom Yawkey's no-salary-talk ban replied.

"Is Williams getting more than last season's reported $80,000?" was the next question.

A Good Contract

"I will tell you it's the best contract Ted has had," Cronin answered.

Recently, on the heels of the signing of Joe Dimaggio and Lou Boudreau for an estimated $90,000 and $65,000-$75,000 respectively, Williams appeared balky about the Red Sox contract he had on hand.

He told Boston friends he was sending it back to have "minor technicalities" ironed out.

Those "technicalities" probably were attendance bonus clauses that could make Williams baseball's first "hundred grander."

Want Amateur Team

KANSAS CITY, Feb. 25—(AP)—An amateur basketball team without a college affiliation is wanted in a hurry to represent Missouri at the National Basketball Congress tournament in Atlanta, Ga.

Claude G. Rowe, state commissioner for the Congress, said he will have to pick the team because there is not time to hold a state tournament before the March meet in Georgia.

Chinese Are Trapped in a Bank

When the Chinese Nationalist government announced in Shanghai that each Manchurian refugee would be given cash relief of 20,000 gold yuan ($20), a crowd of 5000—including many nonrefugees—jammed the scene. When the distribution was halted, the mob occupied the Central Bank, demanding financial aid They were locked inside the bank. Some, like those shown here, had to entreat passersby to buy them food. This man is bringing them some biscuits (Photo by NEA-Acme staff correspondent Warren Lee.)

Hal Boyle Says

By Hal Boyle

MIAMI, Feb. 24 —(AP)— It was the big moment in the criminal life of "Muscle Eyes," the hotel mouse who could fix horse races with his hypnotic eyes.

The cream of the American underworld was there to hear the head of the national gambling syndicate lay down plans for the "big killing."

But the tiny mouse, natty in his camel hair polo coat, was the key man. For little "Muscle Eyes" had earned $5,000,000 for the syndicate by putting the whammy on race horses with his high octane eyeballs.

"And we need your whammy for the big killing," said the big boss coldly. "Here's the pitch: There's a horse called Jakehoof that's the odds-on favorite to win the Widener Handicap at Hialeah.

Raised Ten Million

"The mob's raised $10,000,000 to bet against him. If you put the whammy on Jakehoof, we collect $25,000,000. If you don't well—"

"Take it easy, Greasy," said the Mouse. "I know my business."

The night before the race the mob threw a party. "Muscle Eyes" and his mouse moll, Madeline, were guests of honor. Everybody drank champagne until "Muscle Eyes" passed out on a sofa pillow.

When the mob left, loyal Madeline, who wanted her mouse to go straight, began undressing him. She discovered a tiny pouch around his neck.

"What's this?" she asked, shaking him.

Magic Medicine Pouch

"Thass my magic medicine pouch," he mumbled. "Keep my thyroid capsules and benzedrine tablets in't. They put the old whammy in my eyeballs."

Then he passed out again. Madeline thought and thought, then she opened the pouch. She emptied the capsules and filled them with sugar. She threw away the pep pills and put in aspirin tablets.

The next afternoon, still somewhat groggy, "Muscle Eyes" was smuggled out to the track in a binoculars case carried by the big boss. The boss took up a position at the rail a hundred feet from the finish line.

"They're off!"

The Race Started

That cry burst from thousands of throats as the big race began. "Muscle Eyes" crawled out. He opened his neck pouch and gulped down two pills and two capsules. As the horses turned into the home stretch Jakehoof was leading by three lengths.

"Give him the whammy!" screamed the boss.

The mouse bulged out his eyeballs. But instead of dropping back, Jakehoof picked up speed. The mouse pawed down some more capsules and pills. He strained his weary eyeballs from their sockets. It was no good. Jakehoof galloped on to win by seven lengths — as the gambling syndicate boss fainted.

That night the mob gathered again in "Muscle Eyes" room. The mouse was being pressed with liquor from all sides and there was a Mickey Finn in every drink.

"We know you didn't mean for for us to drop that $25,000,000," said the big boss smoothly.

An Accident

"Naw, I wouldn't double cross you," said "Muscle Eyes," blearily. "It was an accident."

He crawled into a hole in a chunk of cheese on the table and fell asleep. The big boss waited nervously until the mouse's eyes were shut. Then he gave a signal.

One huge gunman slapped a piece of bread against one side of the cheese. A second gunman jammed a slice against the other side. "Muscle Eyes" was entombed — a living mouse sandwich. No one paid any attention to his muffled squeaks. Quickly the mob wrapped the sandwich with adhesive tape. Then they dropped it into a cigar box full of hardening concrete.

Later that night a low rakish black roadster raced across the causeway to Miami Beach. The cigar box, wrapped in a gunnysack, was hurled out and sank to the bottom of Biscayne bay. And so perished "Muscle Eyes," the hypnotic mouse.

Moral: You can't get away with acting like a rat — unless you really are one.

Former Sedalian Wins Talent Quest Award

Word has been received here from Maryville, Kas., that Tom McGeeney, son of Mrs. Marguerite McGeeney, won first place in the "Search for Talent Quiz" being held in that city at the Fox Theatre. His number consisted of tapping and singing and will now compete in the finals there.

While here, Mr. McGeeney was a pupil of Mrs. Harper's dancing school. Mrs. McGeeney formerly operated the East View Barbeque in East Sedalia.

Endorse Building Program

Multi-Million Dollar Measure For New Homes To Senate Debate

WASHINGTON, Feb. 25—(AP) — A vast new home building program calling for construction of 810,000 low rent public housing units in six years was approved Thursday by the Senate banking committee.

The multi-billion dollar measure was endorsed by a 9 to 3 vote after the committee had rejected amendment by Senator Bricker (R-Ohio) to bar segregation or discrimination in the federally financed projects.

Although this civil rights dispute was settled momentarily it probably will be revived tomorrow when the housing bill is thrown open to Senate debate.

Chief Provisions

Here are major provisions of the bill:

1. Public housing—the government's cash contributions would increase progressively the first five years to a maximum of $308,000,000 and stay at that amount for 35 years longer. The 810,000 units would be built at the rate of 135,000 a year, with the President having authority to increase production to 250,000 annually or to cut it to 50,000.

2. A $1,500,000,000 slum clearance program to help localities in cleaning up blighted areas for redevelopment. Of the total $500,000,000 would be in grants over a five year period and the remainder in loans which would not run more than 40 years.

3. A $262,500,000 four-year rural dwelling and building program to be handled under direction of the secretary of agriculture. Of this amount, $250,000,000 would be for loans and the remainder for grants.

The measure also would authorize the housing and home finance administrator to undertake a broad research program aimed at reducing building costs and speeding construction methods.

The action was announced by Chairman Maybank (D-SC) following a closed door meeting of the committee. He said Senators Bricker (R-Ohio), Cain (R-Wash) and Robertson (D-Va) voted against the bill.

The committee also smacked down, 10 to 2, an amendment by Bricker to require that there be no segregation or discrimination in the public housing projects which the bill authorizes.

For the moment, at least, that action headed off a threat that the measure might bog down in a civil rights fight.

Wanted Record Vote

Maybank told reporters Bricker intended to bring the amendment up on the floor, however, and that he had asked for a "record vote" in committee so that there would be no misunderstanding as to how senators had voted.

Senator Sparkman (D-Ala) said the bill is "substantially" the same as approved yesterday by his subcommittee. Sparkman had told reporters earlier that such a proposal as Bricker's could kill the whole bill.

Both he and Maybank said they expected a number of Republicans to join with the Democrats in presenting an agreed measure to the Senate tomorrow.

Maybank was asked if he would attempt to get immediate consideration for the bill in the Senate.

He noted that the Senate already has decided to take up a filibuster-curbing rule change and added that any decision to consider Housing ahead of that "will be left up to the Democratic leadership."

Maybank announced these senators as voting for the bill: Wagner (D-NY), Taylor (D-Idaho), Fulbright (D-Ark), Tobey (R-NH), Flanders (R-Vt), Frear (D-Del), Douglas (D-Ill) Sparkman and himself. Senator Capeheart (R-Ind) was absent.

Only Bricker and Cain supported Bricker's anti-segregation amendment.

Maybank said two other Bricker amendments dealing with public housing were defeated by a voice vote.

Traffic Cases

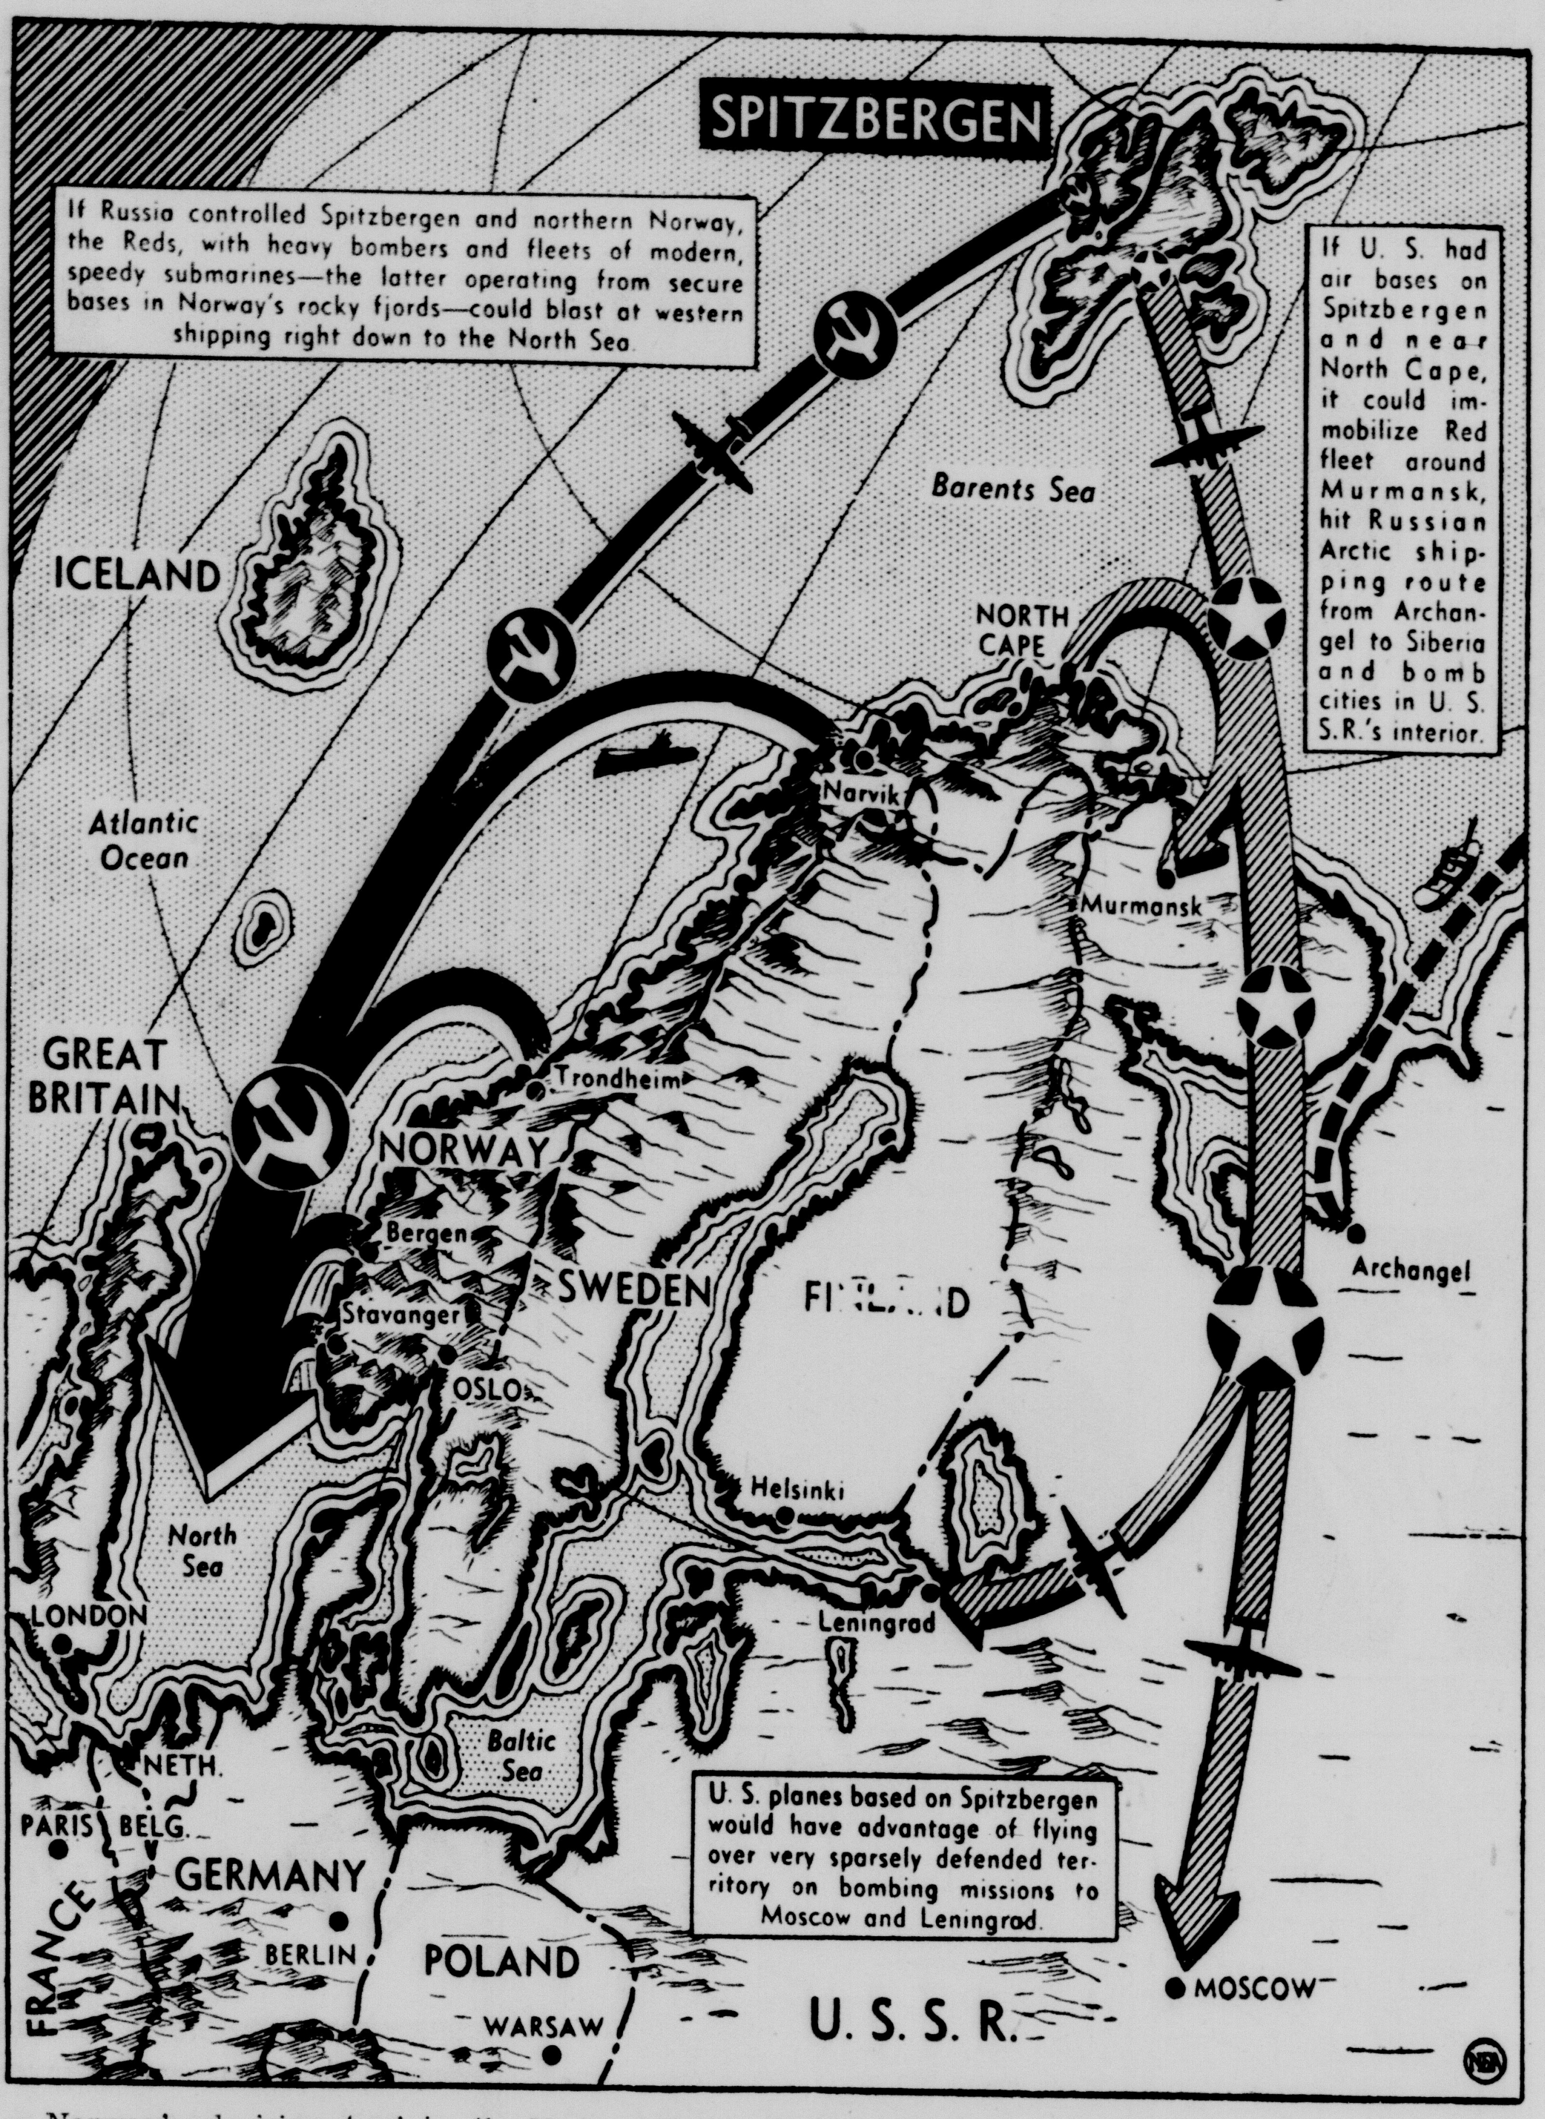
Traffic violators failed to appear in police court this morning, and their five dollar bonds were forfeited.

Eli Sanders, Henri Mos and Runhold Fisher, forfeited bonds for running a red light.

Robert Stein and Kenneth Seibert, forfeited bonds for running stop signs.

Nine overtime parking bonds were forfeited.

Arctic Isle Seen Vital to North Atlantic Securiy



SPITZBERGEN
If Russia controlled Spitzbergen and northern Norway, the Reds, with heavy bombers and fleets of modern, speedy submarines—the latter operating from secure bases in Norway's rocky fjords—could blast at western shipping right down to the North Sea
If U. S. had air bases on Spitzbergen and near North Cape, it could immobilize Red fleet around Murmansk, hit Russian Arctic shipping route from Archangel to Siberia and bomb cities in U. S. S. R.'s interior.
U. S. planes based on Spitzbergen would have advantage of flying over very sparsely defended territory on bombing missions to Moscow and Leningrad.

Norway's decision to join the North Atlantic Security Pact is seen as possibly a final blow to Russia's long efforts to get a grip on the group of bleak islands known as Spitzbergen. Union Guilty of Unfair Practices

WASHINGTON, Feb. 25—(AP)—"Good squad" tactics, employed to intimidate non-strikers in a labor dispute, were condemned by the National Labor Relations Board Thursday in a decision against the CIO-United Furniture Workers.

The board found the union guilty of seven unfair labor practices arising from picket-line violence in a strike at the Smith Cabinet Manufacturing company, Salem, Ind., which began Sept. 4, 1947. The trouble was finally quieted and the plant re-opened after the company secured a court injunction.

Witnesses testified that while the union was fighting for recognition as the bargaining agent in the plant of 400 employes, outbreaks of violence developed such as few recent strikes have produced.

The NLRB ruled as it had in two previous cases that the union was responsible for the picket line acts of its agents under the Taft-Hartley act.

Here are some of the actions which the board found violated the Taft-Hartley act:

1. Carrying of sticks by pickets and the piling of bricks for use by pickets.

2. Blocking plant entrances by railroad ties, automobiles, raised cutter plates, and tacks.

3. Threatening violence to non-strikers over the picket-line loudspeakers.

4. Intimidation of non-strikers as they sought to enter the plant.

5. Posting pickets in such a manner as to prevent non-strikers from unloading a boxcar on a railroad siding.

6. "Good squad" mass assaults on non-strikers, the overturning of a non-striker's automobile, and individual assaults on non-strikers.

7. Barring a plant superintendent and a foreman from the plant by force and intimidation, and attempts to upset the foreman's automobile or damage it.

Uphold Food Chain Conviction

CHICAGO, Feb. 25—(AP)—The U.S. circuit court of appeals unanimously upheld Thursday conviction of the Great Atlantic and Pacific Tea Co. and 24 officers and subsidiary companies on anti-trust charges.

The three-judge court, held that the huge A & P food chain and its officers and subsidiaries had conspired to restrain and monopolize trade restriction of sections one and two of the Sherman anti-trust act.

The 18-page opinion was written by Judge Sherman Minton. The case originally was heard in Danville, Ill., in 1946. Federal Judge Walter C. Lindley of Danville fined the defendants a total of $175,000 after hearing 22 weeks of technical testimony on A & P operations.

The government contended A & P, by its size, was able to coerce manufacturers, growers, shippers and suppliers into advantageous contracts for the chain which were unobtainable by smaller food operators.

It also charged A & P purposely "operated in the red" in some stores to force competitors out of business, and alleged that the losses were made up from profits other than retail sales.

Ten of the defendants, including individuals and A & P subsidiaries were fined a total of $10,000 each. They included John A. Hartford, then 73, and his brother, George L. Hartford, 82, chiefs of the food chain.

The remaining defendants were fined five thousand dollars each.

Missourians Given Income Tax Refunds

Sedalians Share in Allotments Made From Treasury

WASHINGTON, Feb. 25—(AP)—Tax refunds of $500 or more went to several thousand Missouri firms and individuals in the year ended last June 30, the treasury reported Thursday.

The Kansas City Public Service company of Kansas City got the largest Missouri income tax refund $499,200. The largest refund of excess profits tax was $357,413 to the Dewey Portland Cement Co., 310 Ward Parkway, Kansas City.

The Ash Grove Lime and Portland Cement company 1116 Fairfax Bldg., Kansas City got back $297,597 in excess profits tax.

The largest income tax refund listed for individuals was $57,912 to Ed Dubinsky Durwood, 1106 Main St., Kansas City.

All refunds of $500 or more, as required by law, were reported to Congress by the treasury and then made public.

Not Limited To Single Year

The refunds do not necessarily reflect overpayments for any one year. In some cases taxes refunded or credited during the 1948 fiscal year represented delayed audits of returns filed for one or more prior years.

The refund do not always represent cash payments. In many cases they simply are applied as credits against other taxes.

Defense Vital To Democracy

SAN FRANCISCO, Feb. 25—(AP) — Vice President Barkley said on Thursday night that in writing a North Atlantic treaty the U.S. is 'surely justified in placing our mutual strength at the service of a common defense."

Such a defense, he said, is "vital to the preservation of democracy, not only in Europe, but, it may be, in America."

Barkley specifically avoided taking sides in the controversy on whether the proposed North Atlantic pact should include an "automatic commitment" for the United States to go to war in the event of a Russian attack on the nation's of western Europe.

In an address at a Jefferson-Jackson Day dinner here, Barkley said:

"Without attempting to discuss the details of any compact that may be entered into, but having faith in our President and his advisers, and in our Congress I feel confident that out of it will come a constructive understanding that may prevent another World War."

He continued:

Endorse Building Program

Multi-Million Dollar Measure For New Homes To Senate Debate

WASHINGTON, Feb. 24—(AP) — A vast new home building program calling for construction of 810,000 low rent public housing units in six years was approved today by the Senate banking committee.

The multi-billion dollar measure was endorsed by a 9 to 3 vote after the committee had rejected amendment by Senator Bricker (R-Ohio) to bar segregation or discrimination in the federally financed projects.

Although this civil rights dispute was settled momentarily it probably will be revived tomorrow when the housing bill is thrown open to Senate debate.

Chief Provisions

Here are major provisions of the bill:

1. Public housing—the government's cash contributions would increase progressively the first five years to a maximum of $308,000,000 and stay at that amount for 35 years longer. The 810,000 units would be built at the rate of 135,000 a year, with the President having authority to increase production to 250,000 annually or to cut it to 50,000.

2. A $1,500,000,000 slum clearance program to help localities in cleaning up blighted areas for redevelopment. Of the total $500,000,000 would be in grants over a five year period and the remainder in loans which would not run more than 40 years.

3. A $262,500,000 four-year rural dwelling and building program to be handled under direction of the secretary of agriculture. Of this amount, $250,000,000 would be for loans and the remainder for grants.

The measure also would authorize the housing and home finance administrator to undertake a broad research program aimed at reducing building costs and speeding construction methods.

The action was announced by Chairman Maybank (D-SC) following a closed door meeting of the committee. He said Senators Bricker (R-Ohio), Cain (R-Wash) and Robertson (D-Va) voted against the bill.

The committee also smacked down, 10 to 2, an amendment by Bricker to require that there be no segregation or discrimination in the public housing projects which the bill authorizes.

For the moment, at least, that action headed off a threat that the measure might bog down in a civil rights fight.

Wanted Record Vote

Maybank told reporters Bricker intended to bring the amendment up on the floor, however, and that he had asked for a "record vote" in committee so that there would be no misunderstanding as to how senators had voted.

Senator Sparkman (D-Ala) said the bill is "substantially" the same as approved yesterday by his subcommittee. Sparkman had told reporters earlier that such a proposal as Bricker's could kill the whole bill.

Both he and Maybank said they expected a number of Republicans to join with the Democrats in presenting an agreed measure to the Senate tomorrow.

Maybank was asked if he would attempt to get immediate consideration for the bill in the Senate.

Up To Democrats

He noted that the Senate already has decided to take up a filibuster-curbing rule change and added that any decision to consider Housing ahead of that "will be left up to the Democratic leadership."

Maybank announced these senators as voting for the bill: Wagner (D-NY), Taylor (D-Idaho), Fulbright (D-Ark), Tobey (R-NH), Flanders (R-Vt), Frear (D-Del), Douglas (D-Ill) Sparkman and himself. Senator Capeheart (R-Ind) was absent.

Only Bricker and Cain supported Bricker's anti-segregation amendment.

Maybank said two other Bricker amendments dealing with public housing were defeated by a voice vote.

Churchmen To Trial Today

Documents are Offered of Mass Pleas of Guilty

By Dimiter Mishev

SOFIA, Bulgaria Feb. 24—(AP)—The Bulgarian justice ministry made public tonight voluminous documents represented as mass pleas of guilt and repentence by 15 Protestant churchmen going on trial tomorrow on charges of spying for the United States and Britain.

Through the 2,266 pages ran such phases as:

"I admit my guilt.

"I repent.

"I beg clemency.

"I want to be given a new chance to work for the motherland."

Ilia Timev, deputy minister of justice, produced the statements at a news conference. Newsmen were shown three volumes of files of the pre-trial investigations with hundreds of pages in the handwriting, Timev said, of the defendants.

Claim "Confessions"

The government announced previously that all had "fully confessed."

Timev produced 144 pages which he said were in the handwriting of the Rev. Vassil Georgiev Ziapkov, 48, head of the Congregational church in Bulgaria and religious representative of the United Evangelical churches—Congregational, Baptist, Methodist and Pentecost.

Ziapkov is accused of being the main figure in plots to send American and British observers information about the Bulgarian army, movements of troops, extent of armaments and disposition of Soviet troops in the country after 1944. He also is charged with slandering Russia.

Timev showed 172 similar pages he said were written by the Rev. Yanko Nikolev Ivanov, 48, supervisor of the Methodist church and deputy religious representative of the United Evangelical churches; 250 pages attributed to the Rev. Georgi Nikolov Chernev, 46, head of the Penecost church; and 46 pages attributed to the Rev. Nikola Nikalilov Naumov, 49, secretary of the Union Board of Baptist churches.

The prisoners, in jail for weeks, are charged with treason, espionage and violating currency laws. They are accused of having espionage ties with American and British clergymen and welfare workers as well as with foreign diplomats.

The 15 are scheduled to go on trial in a high-ceilinged marble room of the Sofia district court at 8:30 a. m. (1:30 a. m. EST) tomorrow. The court seats 300.

Foreign Minister Vassil Kolarov promised the trial would receive "the widest publicty."

The press department said all foreign correspondents and the press attaches of the United States and British legations will have tickets. No visas were granted for photographers.

Correspondents not normally stationed in Sofia who have been assigned to trial coverage include:

Richard Kasischke of the Associted Press.

Mark Gayn of the St. Louis Post-Dispatch.

St. Patrick's Church Robbed

Donation boxes on the vigil light candle stands were broken into sometime Wednesday evening or later on in the night, and money taken from them at the St. Patrick's church, according to Fr. Lawrence Growney, who made the report to police.

In addition to the two boxes being torn off and lids on them broken, a "poor box," near the door of the church was tampered with and another box was ransacked which was lying on a book case.

Fr. Growney, who has been looking after the church in the absence of Fr. J. T. Nolan, who is in Kansas City, said the amount of money taken was unknown, but didn't think there was too much in the boxes, because they were emptied Sunday.

The two boxes containing money before the thief or thieves entered the church, were found by police behind statues.

MPSC to Issue New Decision In Rate Case

Counsel For K. C. Will Ask to Have Case Reheard

JEFFERSON CITY, Feb. 24—(AP)—The Missouri Public Service Commission expects to issue a new decision on Southwestern Bell Telephone company's rate case yet this week, commission chairman Morris E. Osburn said today.

He said he believes Cole county Circuit Judge Sam E. Blair's reversal Monday of an earlier rate increase granted by the commission did not require a new hearing by the state utility regulating body.

Instead, he said, the commission plans to issue a new decision tomorrow or Saturday.

Meanwhile Jerome Joffee of Kansas City, counsel for that city opposing any increase in telephone rates, said he would ask Judge Blair to order the commission to rehear the case.

Joffee Comments

He said the PSC granted the utility a $3,228,000 annual increase in Missouri rates after studying the company's operating costs for a four month period in 1947.

Joffee said today he believes the case should be reheard because so much time had elapsed and the company's costs might have changed materially in the meantime.

Joffee said he also would ask Judge Blair to retain jurisdiction in the rebate of money to Bell customers who paid increased rates this month.

Effective February 1

The commission's original rate increase decision was effective Feb. 1 but Judge Blair's reversal did not come until Feb. 21—leaving three weeks during which the utility could have charged higher rates.

Yesterday the commission ordered the company to return to customers any increased rates they paid during that period.

The rate hike was granted by the commission last Jan. 18 with two commissioners concurring, one concurring on the result only and two others dissenting. Judge Blair reversed the decision because, he said, at least three commissioners must agree before any PSC decision can be valid.

Circuit Judge Guest Speaker

Talk Given To Kiwanians On Knowledge Of Law

Fundamentals a trial lawyer should know were outlined in a talk by Judge Dimmitt Hoffman before the Sedalia Kiwanis club meeting in Bothwell hotel Thursday noon.

"There is no substitute for a knowledge of the law," the judge declared, "and there are three things a trial lawyer should know: first, know your client, second, know your witnesses, third, know your jury."

The speaker then went on to tell of humorous and semi-serious trial incidents to illustrate the efficacy of thes fundamentals.

The judge was introduced by John Heiss, program chairman.

Birthday greetings song was sung for David Eisenstein, Charles Van Dyne, Herbert Schrankler, Frank Keyser, Victor Scott, and Dr. Floyd Lively.

President Bert Hathaway announced there would be a meeting of the board of directors with committee chairmen in Bothwell hotel Friday noon.

Guests were: I. Crago and W. Seitz, Owosso, Mich., with I. H. Reed and J. F. Downs; K. P. Collins, Jr., with John Heiss; and Abe Silverman with Joe Rosenthal.

Streams Surge To High Levels

KANSAS CITY, Feb. 24—(AP)—The ice choked Missouri river remained a question mark tonight as other northwest Missouri streams surged to high levels.

The big muddy was rising from St. Joseph to the Nebraska line, but below that point was holding steady. The stage at St. Joseph rose from 16 feet to 16.2 this afternoon, while at Atchison it held its morning reading of 24.53 feet.

Army engineers reported finding some cracks in the ice mass in the St. Joseph vicinity at Kenmore and Contrary Bends. Below that area, however, the ice picture apparently had not changed.

Ralph Aldrich, river forecaster, urged farmers living along the Missouri north of Leavenworth to remove cattle and equipment from the bottoms.

An upward revision of the flood crest prediction on the Grand was made late today by Aldrich. He said a crest of 28 or 29 feet is expected at Chillicothe by tomorrow and one of from 31 to 32 feet on the Grand at Summer by late Friday.

He said he did not expect the Grand to go over bankful above Fallatin.

The Thompson river at Trenton was 4.5 feet below bankful stage late today.

'Axis Sally' Tearfully Tells of Her Love For Nazi Teacher

WASHINGTON, Feb. 24—(AP)—"Axis Sally" tearfully told in her treason trial today of her love for a Nazi propagandist.

Mildred E. Gillars, 48, who broadcast the "Axis Sally" programs for the Nazis during the war, described Max Otto Koischwitz as "My destiny." He, it developed, was a one-time teacher in Hunter college, New York, who was in charge of the American phase of Nazi radio propaganda.

Government prosecutors objected to what they called "The story of Professor Koischwitz's life" but Judge Edward M. Curran allowed her to go on. Curran did suggest that she "shorten it up."

James J. Laughlin, attorney for Miss Gillars, argued that she should be allowed to tell in detail about the professor. Laughlin noted he had told the jury in his opening statement that Koischwitz exercised a "hypnotic" influence over her.

She Loved Him

Laughlin asked if she was in love with the professor. She replied:

"It is very difficult to discuss a personal thing like love on the witness stand just as it is to discuss religion or another thing sacred to you. Of course (pause) I loved him."

"Did Professor Koischwitz exert an influence over you?" Laughlin asked.

"I consider Professor Koischwitz to have been my destiny."

Laughlin asked what she meant.

"Well," she began, "I believe people are the result of other human beings who have been in their lives and I feel that if Professor Koischwitz had not been in my life I would not be fighting for my life today." Her eyes welled with tears.

The reference to "fighting for my life" presumably was to the fact that treason carries a maximum penalty of death.

Decide Not to Call MacArthur

WASHINGTON, Feb. 24.—(AP)—The senate armed service committee decided today not to call General MacArthur from his work in Japan to testify on conditions in the Far East.

Senator Knowland (R.-Calif.) had asked that he be summoned as a witness.

MacArthur noted the report of Knowland's request in press dispatches.

The general thereupon wrote Senator Tydings (D.-Md.) chairman of the committee, expressing the hope it would not call him to testify on conditions in Japan and other far eastern areas. He said his work in Japan was pressing, and he was unable to leave.

The committee acceded to his request.

Falls From Speeding Car

Girl, Four and Half Years Old, Not Seriously Hurt

While Mr. and Mrs. Russell Harris of Omaha, Neb., were with their four and half-year old daughter, Malinda Harris, in the emergency room of the Bothwell hospital, Thursday afternoon, Miss Leona Edwards, another passenger in a 1948 De Soto sedan being driven from their home intended to take them to Miami Fla., gave the following account of an unusual accident, which occurred that afternoon about twenty-four miles west of Sedalia on highway 50.

Miss Edwards said while the four were heading east on the highway, Malina who was riding in the rear seat with her, wanted to change positions. She said while Malinda was changing seats, she accidently hit the right side door handle and the door suddenly came open.

She said the girl fell out of the car while it was going at a high rate of speed, and after Mr. Harris, who was driving, had stopped the automobile they had driven about a mile down the highway.

Thrown Into Ditch

When they returned, the girl was lying in a ditch, face down. At first they thought she was dead. They hurriedly drove toward Sedalia and stopped about two miles at a tavern to ascertain the location of a hospital in Sedalia.

A call was then given the police station, and a radio message was given a police car. The police car met the Harris car on the highway and escorted it to the hospital.

Mr. Harris carried his daughter inside and she was immediately taken to the emergency room. She was treated by Dr. John B. Carlisle, who said her condition was not too serious. She was treated for bruises about the body, shock and a cut below the left side of her jaw.

She was admitted to the hospital about 2:45 o'clock and within an hour was dismissed.

The Harris' did not continue their trip to Miami, but headed back toward home.

Missourians Given Income Tax Refunds

Sedalians Share in Allotments Made From Treasury

WASHINGTON, Feb. 25—(AP)—Tax refunds of $500 or more went to several thousand Missouri firms and individuals in the year ended last June 30, the treasury reported today.

The Kansas City Public Service company of Kansas City got the largest Missouri income tax refund $499,200. The largest refund of excess profits tax was $357,413 to the Dewey Portland Cement Co., 310 Ward Parkway, Kansas City.

The Ash Grove Lime and Portland Cement company 1116 Fairfax Bldg., Kansas City got back $297,597 in excess profits tax.

The largest income tax refund listed for individuals was $57,912 to Ed Dubinsky Durwood, 1106 Main St., Kansas City.

All refunds of $500 or more, as required by law, were reported to Congress by the treasury and then made public.

Not Limited To Single Year

The refunds do not necessarily reflect overpayments for any one year. In some cases taxes refunded or credited during the 1948 fiscal year represented delayed audits of returns filed for one or more prior years.

The refund do not always represent cash payments. In many cases they simply are applied as credits against other taxes.

Sedalias In List

Among Sedalians alloted refunds for overpayment of income taxes were: Ollie McMullen, 1009 West Third street, $6,120; Paul McMullen, 914 Crescent Drive, $6,346; J. L. Rosenthal, 1101 West Broadway, $30,357 and Louis Rosenthal, 1014 West Fourth street, $5,860.

At California, Mo., Moniteau Mills, Inc., $41,949 excess profits and $18,697; Frank A. Peck, $13,356 and Alma S. Peck, $1,233.

Union Guilty of Unfair Practices

WASHINGTON, Feb. 24—(AP)—"Good squad" tactics, employed to intimidate non-strikers in a labor dispute, were condemned by the National Labor Relations Board today in a decision against the CIO-United Furniture Workers.

The board found the union guilty of seven unfair labor practices arising from picket-line violence in a strike at the Smith Cabinet Manufacturing company, Salem, Ind., which began Sept. 4, 1947. The trouble was finally quieted and the plant re-opened after the company secured a court injunction.

Witnesses testified that while the union was fighting for recognition as the bargaining agent in the plant of 400 employes, outbreaks of violence developed such as few recent strikes have produced.

The NLRB ruled as it had in two previous cases that the union was responsible for the picket line acts of its agents under the Taft-Hartley act.

Here are some of the actions which the board found violated the Taft-Hartley act:

1. Carrying of sticks by pickets and the piling of bricks for use by pickets.

2. Blocking plant entrances by railroad ties, automobiles, raised cutter plates, and tacks.

3. Threatening violence to non-strikers over the picket-line loud-speakers.

4. Intimidation of non-strikers as they sought to enter the plant.

5. Posting pickets in such a manner as to prevent non-strikers from unloading a boxcar on a railroad siding.

Non-Profit Fairs Ask Aid

JEFFERSON CITY, Feb. 24.—(AP)—An increase in state aid to non-profit fairs over the state was provided in a bill introduced in the house today.

The measure would icrease from a third to one-half the amount the state may pay to fairs, exhibitions and shows as partial payment of premiums given to advance agriculture.

The maximum amount of state aid allowed for any one county is increased from $6,000 to $10,000 by the bill. It was offered by Reps. Charles R. Brown and Lynn A. Stokes, both Springfield Democrats. Springfield is the home of the Ozark Empire fair.

Investment of state funds in interest bearing U. S. Government bonds would be permitted under a constitutional amendment proposal offered in the house by Rep. Roy W. McGhee (D) of Wayne county.

At present the constitution does not permit such investment and state deposits do not draw interest. Previous attempts to put deposits on an interest bearing basis have failed.

Two crewmen and 19 passengers burned to death when a transport plane upset and caught fire on a takeoff from Curzco airport, Lima, Peru. The accident occurred when a tire blew out. All the victims were Peruvians. Two others were injured in the crash.

In Hong Kong, 19 passengers and four crewmen died when a Cathay Pacific Airways passenger plane from Manila plunged into a rocky ravine at the west end of Braemer reservoir in an almost isolated part of northern Hong Kong Island.

Wrangle on Interest Bill

House Group Took No Action on Two Measures

JEFFERSON CITY, Feb. 24—(AP)—James A. Davis, executive secretary of the State Industrial Union Council, warned House Democrats today there would be a big turnover in the legislature if a 27 per cent interest rate bill is passed.

Davis' remarks were made to the House commerce committee which is considering two conflicting interest rate bills for Missouri lending agencies.

"If you Democrats saddle a 27 per cent bill on the people of this state of Missouri, there'll be as many new faces in the next legislature as there was in this one," Davis said.

Davis referred to the Democratic landslide that swept Missouri Republicans out of office in the last election. Labor leaders have attributed the turnover to the stand of the legislature on labor legislation.

Davis was speaking against the Snyder-Cruce 27 per cent interest bill and in favor of the Roos proposal. The Snyder-Cruce measure sets a 27 per cent rate for loans up to $400 and 24 per cent for loans up to $600

Renew Issue Tuesday

After a 30-minute closed door session, the committee quit without taking action on either of the proposals. Rep. Ray Adams (D) of Reynolds county, chairman, said the committee would continue its discussion next Tuesday.

One of the members, asked why no action was taken, replied: "We got into an argument."

Under the Roos bill, which is the result of work of a citizens committee, the rate would be 24 per cent on loans up to $100 and on a sliding scale downward to 9,6 per cent for loans up to $2,500.

Davis termed the interest in the Snyder-Cruce proposal excessive. He said he had heard everything today when he heard the committee ask for unlimited rates on loans of $25.

He referred to a statement by Roy D. Miller of Columbia, executive vice president of the National Educational Research Finance Association. Miller had urged even higher interest rates than the 27 percent He said no rate could be high enough to cover costs of making $25 loans.

Davis asked the committee to be reasonable and "get the rate down to where every person can borrow without being hurt."

The committee closed hearings on the Snyder-Cruce proposal after previously hearing testimony on the Roos bill.

In general, supporters of the Roos measure opposed the Snyder-Cruce bill and Snyder-Cruce proponents lined up against the Roos measure.

Small loan companies testified for the Snyder-Cruce bill while the Roos bill has the backing of a large segment of organized labor.

Report Reds Bolster Forces

By Gustav Stevenson

HELSINKI, Finland Feb. 24—(AP) — A well-informed Finish source said tonight Russia has strengthened her garrisons along the Soviet-Norwegian border.

The informant said the Soviet troops had come from the Murmansk area. While giving no estimate of the number involved, he said the troop movements were observed last week and apparently were in connection with the stand taken by Norway on the projected North Atlantic defense treaty.

(There have been no previous reports of Russian movements in this area.)

The informant, who was not quotable by name said there was no indication of any similar troop movements against the Finnish border.

Norway and Russia now have a short common frontier in the far north. The frontier was established when the Petsamo region of Finland was ceded to the Soviet Union under terms of the Russo-Finnish peace treaty

The Soviet Union recently proposed to Norway that both nations sign a non-aggression pact. Norway has made clear she will not enter into such a treaty. Instead, Norway is prepared to cast her fortunes with countries in the proposed North Atlantic treaty—the United States, Canada, Britain, France, the Netherlands, Luxembourg and Belgium.

Truman Raps The T-H Act

Accuses Foes of Program of Raising 'Old Bugaboo' Of Socialism

WASHINGTON, Feb. 24—(AP)—Want to know what you get at a $100 a plate dinner besides oratory by the President of the United States?

Here's what 3,300 Democratic party contributors ate tonight at their twin Jefferson Jackson Day dinner:

Diamond black terrapin soup with madeira, celery, olives, lobster and crabflakes saute Americaine, old fashioned corned bread, white wine, broiled filet mignon Rossini, sauce bordelaise, new spring beans forestiere, potatoes dauphine, red wine, mixed green salad with endive and avacodo, Lorenzo dressing, brown bread and Liptauer sandwich, champaigne, coupe chocolate mousse with black cherries, Anis Madeleines, Moka.

WASHINGTON, Feb. 24—(AP)—President Truman tonight accused "lobbies and pressure groups" of battling his legislative program. He threatened to tour the country in behalf of it.

Foes of his program, he said, are raising the "old, worn-out bugaboo" of socialism.

The President said the "special interests" oppose repeal of the Taft-Hartley act. He declared the law is "an insult to the working men and women of this country and they will not rest until it is destroyed."

Speaking at a $100 a plate Jefferson-Jackson Day dinner, the President declared:

"All the oratory in the world won't change a bad law into a good law."

"Better Life For People"

Mr. Truman said his legislative program would provide "a better life for our people."

In a fighting mood, the President told his party he was happy once more to be talking to them "from the same old stand."

"Incidentally," he added, "this is right where I expected to be."

He said he was not speaking with "personal pride or elation" but with a feeling of "deep satisfaction that our party has served its country so well."

Some persons were making elaborate plans to "bury the Democratic party" last year he said, adding:

"Before you offer to bury a good Democrat, you better be sure he is dead."

Mr. Truman referred to "determined opposition" to his legislative program. To the "special interests," he said, the campaigns and elections are just "preliminary exhibition matches—the fight in Congress is the main bout."

Says People Aroused

However, he said, the "people are aroused" and not frightened by the "old, worn out bugaboo that socialism is taking over in Washington."

He added:

"I did at lot of traveling around the country last fall and I found that the people were vitally interested in what their government was doing. Make no mistake about it, there has never been a time when the people were so well informed about Congress, and the President, and the records of their representatives and senators as they are now

"This concern on the part of the people is a fine thing for the growth of democracy and responsible government I propose to do all I can to help it along. In fact, I may even get on the train again and make another tour around the country to tell the people how their government is getting on.

"If we keep the people fully informed, I am confident that they will support the Congress and the President in our fight against the special interests.

These interests, he said, "are using every trick they can think of to defeat our labor policy."

Mr. Truman said that after the election he thought he would have the cooperation of "our Republican friends" in repealing the Taft-Hartley act He said he "felt sure" the Republican party would be anxious to throw that act overboard "faster than the sailors got rid of Jonah."

He said he is beginning to think "maybe I was wrong about that," but regardless of what the Republicans do, he added the Democratic party is "solemnly committed to work for repeal of the Taft-Hartley act."

"The same die-hard reactionaries who want to cripple labor unions have also started a campaign of confusion against all other measures for the welfare of the people," Mr. Truman went on.

Reviewing his campaign arguments, he declared these persons say they favor extending Social Security but call administration proposals to do so "a bureaucratic system that will destroy the character of every American."

Boy's Death Declared Accidental

Coroner's Jury Reports Cause of Newsboy's Death Is Undetermined

A coroner's jury, at the inquest into the cause of the death of Donald Joe Kettle, 14-year-old St. Louis Globe Democrat newspaper carrier boy, killed early last Wednesday morning, returned a verdict "that the deceased came to his death from accidental means, the cause of which is unknown."

The inquest was conducted by Dr. C. Gordon Stauffacher, coroner, in the Magistrate court room in the court house, Saturday afternoon. The hearing was largely attended.

The jury was composed by Kenneth R. Middleton, foreman, R. R. Jenkins, Frank Fender, Paul Burke, R. A. Moseby, and C. W. Stephenson.

The inquest was originally set for Friday morning at the Ewing Funeral Home and at that time the jury viewed the body of the boy. The hearing was then continued until Saturday so attorneys and others interested in the hearing could be present.

Chief of Police Edgar Neighbors was the first to testify. Chief Neighbors told of investigations conducted by his department, in an endeavor to ascertain whether a truck, passenger car or what type of vehicle figured in the fatal accident which took the life of the boy at Third street and Ohio avenue, about 5 o'clock in the morning.

Many Reports

Chief Neighbors brought out in his testimony the police are still investigating leads on the accident, many of which already have terminated into nothing of importance.

J. O. "Smoky" Caldwell, 407 North Prospect avenue, driver for the Atlas Cab Co., told of finding the boy about 5:05 o'clock in the morning when taking a passenger to the M-K-T depot. Caldwell stated that he noticed something in the street when at the alley between Third and Fourth streets, but had to drive across the Third street and Ohio intersection before he could identify it as a body, due to the poor lighting on the corner. "However," he explained," the lighting there isn't any worse than any other intersection on Ohio avenue, because half the lights are turned off at midnight."

Mr. Caldwell told of going to police headquarters and notifying them of the accident, and returning to await the arrival of the police at the scene. They were there within two minutes after he had returned, he said.

He explained the pavement was icy or slippery in spots, there being some ice in the vicinity of the accident. He reported he saw no other vehicle in sight nor any person who might have seen the accident.

Police Testify

Police Officers William Hatfield, Williard J. Duncan, Ted Brown and Charles R. Ellis testified as to what they saw at the scene, markings on the pavement and where the front wheel of the bicycle was found with reference to the body which was still straddled the frame of his wheel. It was lying about ten feet north of the Third street curb line on Ohio avenue.

James Gray, Negro, 311 East Pettis street, employed at the Missouri Pacific shops, was called to the stand. Gray, it had been reported, said he had seen the accident. However, on the stand, in answer to questions by Prosecuting Attorney William F. Brown, he denied being anywhere near the scene until "twenty minutes to seven".

Asked where he was about 5 o'clock Wednesday morning, Gray replied, "I was home in bed at 5:00 o'clock, got up at 6:15 and caught a bus at Third street and Ohio avenue about twenty-minutes to seven." Brown asked him what he saw at Third street and Ohio avenue, and he said, "I only saw blood and marks on the street."

A Mistake

"I am told," Mr. Brown then said, "that you reported seeing the accident, and you told fellow employees at the shops this. Is that true, Mr. Gray?" Gray said, "They got it wrong. I said I seen blood, I didn't see the accident. They was mistaken."

Lester Greer, 1712 South moniteau avenue, driver for Tullis-Hall Dairy, who was questioned Wednesday night by the police in connection with the accident, was called to the stand. Mr. Greer explained he was testifying voluntarily, but was accompanied by counsel, Fred F. Wesner.

Greer told of going to work about 4:30 o'clock, Wednesday morning, loading his truck and starting his trip to Marshall. He said he traveled west on Third street and turned north on Ohio avenue at Third street. He related how he thought he heard something turn over in his truck and after driving nearly to Main street, stopped to investigate.

"I thought maybe some bottles had fallen over or the side door to the truck might have come open. I checked and found everything alright and got back into the truck and continued on my trip. I never saw anybody or anything when I turned the corner," Greer said.

Heard News in Marshall

Continuing he said, "At Marshall a Dixie Kitchen driver told of a boy being killed on Ohio avenue, and said it was between Third street and Fourth street, and as I had not come that way, I thought nothing of it. After we got back to Sedalia Mr. Greer, (W. W. Greer) and Mr. Hall, (Marion Hall) talked with us and said the police had been checking our trucks. I still didn't think I was involved and went home.

"I never seen anything or never seen anybody. I can't think my truck struck that boy. I have driven several years and never was in any serious accident. I drove for a year for Dixie Kitchens and about six years for Tullis-Hall, without any trouble." he concluded.

Mr. Greer was the last to testify after which the jury deliberated less than ten minutes on the verdict.

Prosecuting Attorney William F. Brown assisted Dr. Stauffacher in questioning of the witnesses. Lawrence Barnett and Chester Wolfe represented Tullis-Hall at the hearing.

S-C Tigers Won Over Kewpies

Columbia suffered a second defeat by the Smith-Cotton Tigers in the past week when they lost by a score of 32-67 in a conference tilt played at the Smith-Cotton high school, Friday night.

The Tigers racked up eight points in the start of the first quarter before Columbia managed to hit a basket for points. All five of the Tiger players tallied points in the first quarter, which ended 22-8 in favor of Sedalia.

Tigers Led All The Way

Smith-Cotton never was in trouble, grabbing an early lead and keeping it. James Ball substituted five men at a time. He played the first string in the first quarter, alternated his second string players in the second quarter, and repeated the switch in the third and fourth quarters. During the third quarter, the first string made the lowest quarter with only 14 points.

Intermission score was 37-17 with the Kewpies trailing. Most of the Tigers' scoring in Friday night's game came off the back board in rebound shots.

Public relations is an important administrative function of the Girl Scout council. The chief aim is to interpret Girl Scouting to the public, and to interpret to all members of the organization — girls and adults — their share in creating favorable public opinion. If parents are to entrust their daughters to Girl Scouting they must understand what the organization can do for girls. If communities are to make possible more troops and wider service, they must understand and support the principles of fair play, equality of opportunity, and friendly cooperation that Girl Scouting helps to teach. Mrs. Joseph Ruddick, is public relations chairman for the Sedalia Girl Scout Council, and will endeavor to use all available publicity channels to get the purpose and program of the Girl Scout organization before the public.

International Friendship, the 1948 theme has carried over for the year 1949, and comes under the Juliette Low chairman, Mrs. John C. Ryan. Clothes for Friendship was the major project for the year created such wide interest the work has been carried over until March 12, the Birthday of Girl Scouting in the United States. The following letter has just been received. "Dossenheim, 18th of December, 1948. From Mrs. Paula Lortz, Dossenheim, Heidelberg, Schwabenheimerster, 50 Germany. To Mrs. Lawrence Dailey, Troop 62, Broadway School: By the "Arbeiter-Wohlfahrt" I received some pretty garments for my little daughter, aged 6 years. The Arbeiter-Wolfahrt is a public welfare committee in Germany for the West Zone, which helps fugitives and refugees and those people, who have lost their homes and goods and chattels. I myself have lost all my goods in the city Mannheim, in 1943, by bombs. I was very glad to get these garments on Christmas and in this way I should like to give my most hearty thanks. Yours thankfully, Paula Lortz."

Mrs. Ryan held a meeting of her committee in the Girl Scout office of the court house Tuesday afternoon to make tentative arrangements for the Girl Scout Birthday party, March 12. This is the day all Girl Scouts make their contributions to the Juliette Low World Friendship Fund. Completed plans will be made known shortly. Serving on the committee are: Mrs. Ryan, Mrs. H. C. Salveter, commissioner, and Mrs. Ruddick from the council. Leaders are: Mrs. F. Emory Bowman, Washington school, Mrs. I. H. Lehmer, Mark Twain, Mrs. Champ Richardson, Horace Mann, and Mrs. Rouchka, Sacred Heart.

Heart shaped sandwiches and cakes with red icing, hearts and hatchets, with punch were served during the evening. The Queen was selected by votes deposited in a wishing well, attractively decorated. Partners for the square dancing which featured the evening's entertainment, were selected by matching hearts. The 16 Girl Scouts and their Valentine escorts, enjoyed a memorable party.

Intermediate Troop 21, Sacred Heart, with their leaders, Mrs. J. Roger Fuller and Mrs. William Dick, entertained Tuesday evening with a five o'clock fried chicken dinner in the school cafeteria. The Smithton "A" team proved a little too fast and clicked a little too well for the Sacred Heart boys. The team was smooth in all departments, both offensively and defensively, with three of the five players vying for high scoring honors. C. Wagenecht paced the Smithton squad with nine points to his credit, while Albert Allgaier, Gremlin guard led Sacred Heart by scoring over half the total points, accounting for ten tallies. "B" Game Closer

The "B" game was a closer contest, and Sacred Heart held the lead at the first half, 10 to 8. The Smithton boys put on a scoring spree with 12 points in the third quarter to lead at the end of that period, 20 to 16. The final quarter became much faster but scoring was very slow with only five points being made during the entire quarter. The final whistle found Smithton the victor, 23 to 18. Wagenecht led Smithton with ten points, while Joseph Paxton paced Sacred Heart with the same number.

The Smithton girls' team displayed excellent teamwork and the results of much practice in holding Sacred Heart to a dozen points in a 50 to 12 victory. Smithton stole the show during the entire game, with the halftime score being 25 to 9. Scott starred for Smithton with 14 points, while Dorothy Connell led a low-scoring squad with three.

Frolic Game At Houstonia

A donkey basketball game thrilled and excited about 400 fans in a game played at Houstonia last week which was promoted to raise funds for the benefit of a player who broke his arm in a basketball meet there two weeks ago.

Towns participating in the game were Hughesville, Houstonia, La Monte, and Sweet Springs.

The games were played with four basketball players upon the backs of donkeys; that is, when the players weren't sitting on the floor, or attempting to get back upon the obstinate donkeys' backs.

After the games, the trainer of the donkeys had three of the largest players try to ride one donkey, which was difficult to accomplish. Then the trainer picked a small boy from the crowd, who rode the animal without any difficulty, just to show the players how it was done.

Following the main event of the evening, two regular half time games were played. Houstonia defeated La Monte by a score of 16-14 and Hughesville walloped Sweet Springs, 24-17

Former SAAF Men Meet Here Accidentally

Robert K. Reiste, who during the war was Sgt. Reiste, editor of the Troop Courier of the Sedalia Army Air Field, who has been living in Spearfish, the Black Hills, of South Dakota, stopped in Sedalia Saturday on his way to Dallas, Tex. Traveling with him, by car, were his wife and year old son.

Reiste stopped at the Democrat office to visit with friends. The Troop Courier was printed in this office and much of his time was spent with the newspaper force.

Reminiscing he remarked, "I wonder what happened to "Tommy"? "Tommy" was Lieut. W. L. Thomas, public relations officer at the base and then Reiste's commanding officer.

Reiste left to go down the street for a few minutes, and scarcely had he gone until who walks in the Democrat office, grinning from ear to ear, but Lieut. Thomas, on his way from Pennsylvania to Waco, Teaxs.

Happy Reunion

"Tommy" stayed until Reiste returned, and the accidental reunion was an unusual one. Both men had happy memories of the time they spent in Sedalia, and both went out of their way to stop over here when the occasion presented itself.

Lieut. Thomas has been in Valley Forge hospital, Phoenixville, Pa., for three months. His ticket directed him home by way of St. Louis, but when he realized he was so near to Sedalia he left the train and came to this city to renew acquaintances. He reentered the Air Force about a year ago and is with the Texas Flying division of the Training Command, Randolph, Texas.

Lower Auto Premium Rate

Tangible recognition of the trend toward a lower accident frequency among automobile drivers is found in the approval by the Insurance Department of Missouri, effective February 21, 1949, of lower automobile insurance rates for State Farm Mutual Automobile Insurance Company, Bloomington, Illincis.

Frank Stonner, state director for State Farm Mutual in Missouri, makes this comment: "1948 was an outstanding year for State Farm. Gains from underwriting far exceeded company requirements and, after establishing ample reserves for all contingencies and surplus, the company finds it can further reduce insurance costs to its policyholders. This rate reduction in Missouri, estimated to save policyholders in the state $252,000 annually in premiums, is part of a nation-wide program involving over $10,000,000 in premium reductions."

Red Cross Corner

To cooperate with relief agencies has always been a definite part of American Red Cross activity, and at the present time ARC is doing everything possible to bring CARE and its almost monumental work to the attention of the public: to those who are already familiar with the organization, and to any who may not be so familiar. In addition to the previously reported gift packages available for sending overseas, CARE announces that a vegetable seed package endorsed by the secretary of agriculture is offered for $4.00 with delivery guaranteed in Austria, Belgium, Czechoslovakia, Finland, Hungary, Italy, France, Greece, The Netherlands, Poland, and the American, British and French zones of Germany and Berlin. Seeds are not being delivered in Great Britain because authorities there consider that the supply is adequate.

The vegetable seed package contains enough seeds of 28 selected varieties to plant a garden 50 by 150 feet. Each packet is marked with the name of the vegetable seed it contains in the language of the countries in which CARE operates and with a drawing of the vegetable.

CARE is also offering a field corn seed package at $4.00, principally for the use of farmers in raising feed for livestock. For the present, this package is available for distribution on general relief basis only to small farmers in Italy, where the best conditions exist for cultivation CARE advises that orders for seed packages should be placed at the earliest possible date so as to insure delivery in time for the planting season.

RED CROSS reminds you that this is one of the ways in which we, of the United States, may help the people of Europe to remake their ruined lives, and help themselves to become at least partially independent. Send check or or money order to:

CARE (Cooperative for American Remittances to Europe, Inc., 500 Broad street, New York 4, New York.

housing but calls low rent housing a mistake "because it does too much for low-income families," he observed.

"They make speeches about the American home — but they encourage the landlords to lock out their tenants until rent control is repealed," Mr. Truman continued.

"They say they are in favor of good wages—but they argue that the minimum wage should be held down to a starvation level.

"They claim to be in favor of developing our great river basins —but they raise the old cry of 'super state' against every practical step we propose.

"We will not be deceived by their propaganda. Despite their efforts to confuse, we will enact the programs to which we are committed.

"We can and we will provide a better life for our people."

Mr. Truman renewed his advocacy of farm price supports which he said "some selfish groups tried to destroy" last year. These supports, he argued, "are actually supports for our entire economy."

Nothing Planned For China

Until 'The Dust Settles a Bit' Sec'y Acheson Tells Republicans

By Douglas B. Cornell

WASHINGTON, Feb. 24 — (AP) — Thirty House Republicans discussed the Chinese situation with Secretary of State Acheson today and got the idea this government plans no action until "the dust settles a bit."

Many of those attending the conference told reporters they learned little of value.

Acheson himself had nothing to say.

One of those who sat in said the secretary had indicated the United States has adopted a "wait and see" attitude toward China and will wait until things are more stable before deciding on any new steps to help.

Another congressman, asked whether this government has a policy for meeting conditions in event a Communist or coalition government takes control in China, replied:

"Do Nothing" Policy

"I don't know whether you can call 'do nothing' a policy or not."

Most of those attending the meeting had signed a letter to President Truman saying they were worried about China and fearful of a Communist victory.

The letter, which included seven specific questions regarding Chinese policy, was turned over to Acheson.

Acheson gave no written answer. And lawmakers who consulted with him today said he provided no specific replies.

No Comment

To a request from a reporter to outline America's policy toward China, Acheson smiled and said: "I'm not going to say anything."

He said it was a friendly meeting and entirely off the record.

But two of those who listened in said that Rep. Judd (R-Minn) and Acheson had a 15-minute "go-round." One said it started when Acheson said that the Nationalist government in China is "corrupt and inefficient." He said Judd told the secretary that was due in part to failure of the United States to take proper action.

Hecklers at Klan Meeting

WEST COLUMBIA, S. C., Feb. 24.—(AP)—Hecklers threatened to break up a Ku Klux Klan rally here last night. One sulphur bomb was thrown.

The hecklers identified themselves as University of Couth Carolina students.

Police and Klansmen finally got them to leave the field where Grand Dragon Samuel Green of Atlanta was speaking to a crowd of about 2,000.

The students said a Klansman pulled a knife on one of their group. They insisted that West Columbia police were "pro-Klan."

Green came to charter new Klans here and at Swansea, both in Lexington county. He estimated that approximately 1,000 members of the robed and hooded organization were in the large circle around a gasoline-soaked blazing cross.

Hubbard Tigers Drop Game

The Hubbard Tigers dropped a conference tilt to the Jefferson City team by a score of 60-45, Thursday night in a fast moving game on the Hubbard court.

The first quarter ended 22-11 in favor of Lincoln, but the intermission score was in favor of Sedalia by one point-26-27 During this quarter, Coach Broadus sent in Fitzpatrick.

With the deadly shooting of Mason who tallied 20 points, the Tigers kept up with Jefferson City, but fell off during the last quarter.

Egypt Signs Armistice With Israel

Event Foreshadows Early Peace to The Middle East

RHODES, Feb. 24—(AP)—Egypt and Israel signed today an historic armistice, hailed by the United Nations mediator as an epochal event foreshadowing the early return of peace to the Middle East.

The mediator, Dr. Ralph J. Bunche, said the agreement "virtually eliminates the possibility of a future armed conflict" between Egypt and Israel. He called it "a significant contribution to world peace."

Now, said Bunche, "the concentration will be on peaceful settlement of all outstanding questions political, territorial and economic, between Israel and her Arab neighbors." The U. N. Palestine conciliation commission already has started to work for this.

RHODES, Feb. 24 — (AP) — The armistice signed today by Israel and Egypt is one more step toward full peace in the Holy Land.

The first step was the truce, ordered by the United Nations, which ended the actual shooting. The armistice is a negotiated agreement binding both parties to avoid hostilities. The final step must be the peace treaties with all the Arab nations which have been at war with the new Jewish state.

While there is little difference in definition between armistice and truce—both are cessations of hostilities by mutual agreement—the accord in this case recognizes a difference in describing the armistice as a transitional step from truce to peace. Foreign Minister Moshe Shertok of Israel pointed this up in Tel Aviv today when he said in a statement there is "considerable distance from this first armistice to the last peace treaty."

Blazed The Path

Egypt and Israel, by their agreement, blazed the path for the other Arab states. Iraq already has decided to approve whatever agreements are reached by the other neighbors of Palestine who nine months ago had vowed to destroy the dynamic Jewish state. Talks with Trans-Jordan, the most formidable of Israel's foes, begins Monday.

The Israeli-Egyptian armistice leaves Israel in possession of nearly all the soutuhern Negev desert, which she hopes to colonize, including Beersheba, mother city of the Arab race. It outlines broad demilitarization zones, binds Egypt to surrender all territory she holds in Palestine except Gaza and its five-mile-wide coastal strip and to withdraw to a defensive line of 1 to 30 miles inside her own frontiers.

The armistice is clearly described in its preamble as a prelude to permanent peace.

In Cairo, Prime Minister Abdel Hadi Pasha told newsmen the agreement was on "purely military questions" and did not deal with the political future of the Holy Land. But in Tel Aviv, Israeli foreign minister Moshe Shertok said the armistice would prove a "momentous event in the life of the Middle East." He added that Israel was confident Egypt would never regret her initiativve in ending the shooting war.

Uphold Food Chain Conviction

CHICAGO, Feb. 24—(AP)—The U. S. circuit court of appeals today unanimously upheld the conviction of the Great Atlantic and Pacific Tea Co. and 24 officers and subsidiary companies on anti-trust charges.

The three-judge court, held that the huge A & P food chain and its officers and subsidiaries had conspired to restrain and monopolize trade restriction of sections one and two of the Sherman anti-trust act.

The 18-page opinion was written by Judge Sherman Minton. The case originally was heard in Danville, Ill., in 1946. Federal Judge Walter C. Lindley of Danville fined the defendants a total of $175,000 after hearing 22 weeks of technical testimony on A & P operations.

The government contended A & P, by its size, was able to coerce manufacturers, growers, shippers and suppliers into advantageous contracts for the chain which were unobtainable by smaller food operators.

It also charged A & P purposely "operated in the red" in some stores to force competitors out of business, and alleged that the losses were made up from profits other than retail sales.

Ten of the defendants, including individuals and A & P subsidiaries were fined a total of $10,000 each. They included John A. Hartford, then 73, and his brother, George L. Hartford, 82, chiefs of the food chain.

The remaining defendants were fined five thousand dollars each.

Fears of Floods Are Evident

By The Associated Press

Fast-melting snow sent the Missouri river over its banks near its headwaters in western Montana yesterday, stirring fears that major floods may be in the making.

A weather bureau forecast of warmer weather spreading into the snow-laden Dakotas together with ice jams in the mighty Missouri posed the possibility of floods. Growing backwaters might spread over thousands of acres of lowlands along the big river's course.

Cold weather held firm last night in eastern Montana and the Dakotas, but drainage engineers agreed a fast thaw could produce widespread inundation, particularly with the ice-bound stretches serving as strong temporary natural dams.

Water was high in the Missouri river northwest of Atchison, Kas., and the stream spread over its banks in parts of Montana, near its headwaters. R. A. Dightman of the weather bureau's Helena station said flooding might become critical in the Montana reaches by Saturday if mild weather persists.

Meanwhile, at Kansas City, Mo., Red Cross, Army and federal agencies' representatives met to plan for a possible flood emergency if the Missouri rampages.

Woman Artist Offers Her Left Ear For Sale so She Can Eat

SANTA MONICA, Calif., Feb. 24—(AP)—Miss Cock Van Gent, 24-year-old Dutch artist, has offered her left ear for sale at $24,000— so she can paint and eat too.

In this country on a visitor's permit, Miss Van Gent is determined to stay and pursue her art, but she's handicapped by a lack of cash. So she advertised her ear for sale in a newspaper.

"I won't compromise," says she. "I refuse to earn my living as a commercial artist or paint pretty portraits on commission. If I can't go on with my painting as I wish, I would rather not live at all."

She's obtained a room by caring for a local home, lives simply, and rolls cigarettes to cut expenses. So far she's had no bids for her ear.

Miss Van Gent hitchhiked over the U. S. making sketches, oils and watercolors of her impressions. She says she has had one-man shows in Seattle, San Francisco and Los Angeles and exhibits at the Cleveland art gallery.

Immigration authorities require her work to appear in eight shows a year, to remain here, she says, and she must paint so much she has no time for a job.

Governor Had no Indication Reardon Wanted to Withdraw

ST. LOUIS, Feb. 24—(AP)—Gov. Forrest Smith said today that Dan Reardon "never gave me any indication that he wanted to withdraw" from his appointment as president of the newly-appointed board of St. Louis police commissioners.

The governor attended a dinner last night of the St. Louis Advertising club and left this morning for Jefferson City.

His comment concerned a St. Louis newspaper report that Reardon has resigned and that Israel Treiman, attorney and former Washington University law professor, will replace him.

"I will not withdraw Reardon's name unless there is something to the rumor that Dan wants to withdraw," the governor said.

He said that as far as he is concerned Reardon, a St. Louis attorney, is still an appointee. He said he had received a note from Reardon to expect a telephone call today.

Scarcely Knows Him

"'So far as this man Treiman is concerned, I've only seen him, I guess, once in my life. That was about a week ago when he was in Jefferson City arguing a matter before the supreme court. He dropped in to tell me he thought the four men I chose for the police board were the best I could have picked."

Treiman, however, said today he talked with Governor Smith yesterday and informed him he would accept appointment to the board.

"As of this moment," Treiman said, "I have received no official notice of any appointment to any board, commissioner or any other office." He would not say whether the governor had offered him a place on the board.

Will Substitute

The report on Reardon's withdrawal said the governor today will ask the senate committee on municipal corporations to return Reardon's name to him and that Treiman's nomination will be substituted.

The board appointees have been criticized editorially by St. Louis newspapers in connection with reports that it would be tolerant of gambling.

Reardon after his appointment Feb. 14 issued a statement that there would be no gambling. He was enroute last night to Washington and could not be reached for comment.
